# $9 Million Increase Seen in Building Here

*Yellowknife Fire Claims Two Lives*

Tragic fire that took lives of two residents is shown as it swept through Yellowknife Hotel in the early hours of Friday morning. Picture shows firemen battling to keep flames from spreading to buildings located to right of hotel. Fire drew nearly everyone in northern mining town to scene.

**LOOKING DOWN** into heart of fire that swept Yellowknife Hotel early Friday, picture shows the intensity of blaze that caused upwards of $50,000 damage. Two men, George Saunders, 67, and Carl Peterson, 70, were burned to death.

## New Forest Fires Rage In Alberta

### Rainless Weekend Increases Threat Of More Blazes

Fresh fire outbreaks in the Sturgeon Lake area yesterday gave forestry crews another setback in their fight against Alberta's serious fire menace.

Prospect of a hot rainless weekend in Alberta threatens to increase the fire threat.

A 23-man crew and two bulldozers were sent to the area north of Sturgeon Lake, about 180 miles northwest of Edmonton, yesterday when a serious blaze broke out.

**OUT OF CONTROL**

Forestry officials think the fire may have been started by lightning.

The blaze is burning out of control despite the efforts of forestry crews, and is threatening a nearby timber berth.

Less serious is a small new fire northeast of Sturgeon Lake. Small crew at work on this blaze is hopeful of checking it today.

Elsewhere, northern bushlands are almost free of fire danger, with very small crews patrolling nine old blazes which may soon be completely extinguished.

**CLEAR SKIES HERE**

Forecasts promise a hot sunny week-end in most parts of Alberta. At Edmonton skies will be clear and winds south at 15, with temperatures reaching a high of 75 today, and climbing to 85 degrees tomorrow.

No rain fell in Alberta yesterday and danger of crop deterioration as a result of the dry weather is again indicated.

Temperatures across Canada yesterday:

| | H | L | | H | L |

## 9-Year-Old Hit by Bullet

A nine-year-old South Side boy is in hospital here today with a .22 calibre rifle bullet in his thigh.

The youth, Donald Ludbrook of 9540 75 avenue, was injured when playing in Mill Creek ravine near 76 avenue with three other boys about 6 p.m. yesterday.

As far as police could ascertain today the youth was injured when his brother tripped over the rifle which was laying in the grass.

**RICOCHETED FROM ROCK**

The gun discharged sending a bullet towards a nearby rock. It ricocheted from the rock into the Ludbrook boys thigh.

Police are not certain whether the rifle belonged to one of the youths or not.

Passerby was attracted to the scene by the screams of the injured lad who was rushed to University hospital by Ed Powell of 8754 78 avenue.

Investigation is continuing.

## Yank Kills Russ Soldier

By JAMES J. DEVLIN

FRANKFURT, Germany, July 9.—(AP)—A young Russian soldier was killed in a border gun battle between United States and Soviet army patrols yesterday near Coburg, American officials announced today.

A United States Army lieutenant shot the Red trooper 200 yards inside the American zone after "numerous" Russian soldiers fired on an American patrol, the announcement said.

The United States constabulary command said a protest will be filed, charging the Russians with firing on an American patrol in the United States zone and illegally crossing the zonal boundary.

The army announcement said the American patrol was checking markings along the American-Soviet zone boundary at Rothenbach, near Coburg in Bavaria, when it was "fired on."

A constabulary spokesman said the protest concerning the incident will be filed with Russian border officers as soon as contact can be made with them. The constabulary is an army branch formed in Germany for both combat and border-patrol duties.

### Executive Dies

BERNARDSVILLE, N.J., July 9.—(AP)—S. Willard Smith, 77, former president of the Childs restaurant chain, died yesterday at his home here.

## FISHERMAN FOILED BY FLY WARDEN

POTTSVILLE, Pa., July 9.—(AP)—It cost Michael Balsko, 40, $23.50 to learn that the man standing next to him was a fish warden.

"Don't you know that's illegal," asked a voice as Balsko took a spawning sunfish off a nest with a landing net at a dam near here yesterday.

"Yeah, but there's nobody around," Balsko replied.

Anthony Lech soon let him know he is the Schuylkill county fish warden. In court, Balsko was fined $20.00 and $3.50 in costs.

## Hiss Trial For Perjury Deadlocked

NEW YORK, July 9. — (AP) — The perjury trial of Alger Hiss ended in a deadlocked jury last night, and the government promptly ordered a new trial.

The jury, split eight to four in favor of a conviction, was dismissed after nearly 29 hours of fruitless effort to reach an agreement.

Shortly thereafter, Attorney-General Tom Clark announced in Washington:

"The department of justice will vigorously prosecute the Hiss case again as quickly as the docket of the court will permit."

**NOT BEFORE FALL**

At the earliest, that probably would not be before next autumn.

A justice department spokesman here said that big, mustached Thos. F. Murphy, the assistant United States attorney who handled the prosecution, will have the same job again when the case is retried. Hiss was continued in $5,000 bail.

Failure of the jury to reach a verdict left still in doubt the role —if any—that Hiss had played in an alleged prewar betrayal of the United States.

Jurors said that almost from the outset, they had been deadlocked eight to four for conviction of the brilliant, 44-year-old Harvard graduate whom the state department sent to Dumbarton Oaks, Yalta and the San Francisco conference where the United Nations was founded.

**SENDS JURY HOME**

Federal Judge Samuel H. Kaufman, wearily and with reluctance finally admitted the hopeless split and sent the jury home.

## Many Big Projects Get Underway Soon

Edmonton building total will be increased by approximately $9,000,000 within the next two months according to a survey made by the Bulletin.

Building in territory served from Edmonton scheduled for immediate construction totals approximately $2,000,000.

Construction slated for the city includes warehouses, offices, schools, churches, theatres, apartment blocks and dwellings.

District construction includes housing project at Redwater, schools, stores, theatre, and civic centre.

**COMMERCIAL BUILDING**

Among the commercial projects listed for Edmonton are bakery and office building for Weston Bakeries Ltd., to cost $500,000. This structure will be erected in the recently designated industrial subdivision in the north central area.

Other projects to be erected in this area include Coca Cola Ltd. plant and offices, $400,000; Crane Ltd., warehouse and offices, $300,000; Firestone Tire Co., warehouse, $100,000.

Tenders have been called, returnable July 27, for the construction of CNR freight sheds. This project is estimated at $600,000.

**TWO SUPER MARKETS**

Safeway Stores Ltd., have called for tenders covering two supermarketing stores, one to be erected at 109 street and Whyte avenue, the other at 94 street and Jasper avenue. These stores are estimated to cost $100,000 each.

## City Driver Is Charged

An Edmonton man faces a dangerous driving charge in police court today after the car he allegedly operated last night struck a telephone pole and a tree in downtown Edmonton.

He is Stan Parker, 12318 91 street. Parker is also charged with illegal possession of liquor.

According to police reports, the auto he was operating north on 99 street, turned sharply east at 95 avenue, climbed the east curb, and travelled 40 feet when it struck and sheared off a telephone pole.

The vehicle moved another 80 feet before it struck a tree, and stopped 58 feet beyond the point of impact.

Driver of the wild car escaped injury.

## U.K. Official Blames Reds For Strike

LONDON, July 9.—(AP)—Attorney-General Sir Hartley Shawcross charged today that the London dock strike was led by Communist agents acting on instructions from abroad.

The walkout continued despite a government threat to proclaim a state of emergency unless it ends by Monday. It crippled the port of London and held up urgently needed food supplies.

**DOCKERS SPLIT**

Some 1,000 dockers voted to go back to work Monday. But several hundred others joined the 10,000 already on strike over a dispute involving the unloading of Canadian ships. Almost 2,000 soldiers and sailors were unloading 14 food-laden ships. They quit for the week-end at noon.

In a speech at St. Helen's Shawcross said the strike was "either started or fomented by Communist agitation."

"We are in an economic situation of the gravest danger," Shawcross said. "The avoidance of bankruptcy and the very survival of the country depend upon our jointly exerting every possible effort.

**INSTRUCTIONS FROM ABROAD**

"The Communists are seeking their ends by infiltrating into the trade unions, on causing industrial unrest and economic sabotage. They do so under instructions from abroad."

Shawcross said the Communists had announced their decision to intention of smashing the Marshall Plan for European recovery, confronting democracy with "a grave problem."

## Acrobat Dies In Plunge

AGAWAM, Mass., July 9.—(AP)—A man booked under the name of Eddy Polo was killed last night in a fall from a tight rope during his act at Riveraide amusement park.

Operators of the park at first identified him as the screen star of the silent movies and carnival stunt man.

But the real Eddy Polo was located at his home in Los Angeles, Calif.

Polo said the man was an actor "trying to struggle along, so I just let him use my name." He didn't know the man's real name.

Neither police nor the medical examiner had papers which would definitely identify the man.

## Stampede Queen Dispute Flares Bitterly Again

CALGARY, July 9.—(CP)—A bitter dispute over who should reign as queen of the Calgary Stampede flared up again last night, less than three days before the opening of the big western show.

In a statement made public last night, Calgary lawyer Edward J. McCormick, representing the Canadian Shoe Retailers Association, charged that runner-up Marion Birchall is rightful holder of the title.

Miss Birchall, 19-year-old employe of Calgary Hudson's Bay store, was actively supported by the shoe retailers during the campaign to name a queen. She was official Calgary Girls Town candidate.

**MERLE STIER NAMED**

Named queen in the contest which closed last June 15 was Mrs. Merle K. Stier, prominent Calgary horsewomen who was sponsored by St. John Ambulance Brigade of Calgary.

Winner of the contest, sponsored by the Calgary club of the Associated Canadian Travellers, was decided by votes obtained by selling tickets at 25 cents each. Each ticket was worth 25 votes.

Following a recount of the votes, ACT officials here announced that Mrs. Stier had polled 829,700 votes compared with 815,950 votes for Miss Birchall.

Under contest rules, one half of the proceeds from the tickets was turned over to ACT and the remaining half retained by the

## Steel Strike Seen in Week

PITTSBURGH, July 9.—(AP)—A country-wide steel strike in the United States may begin one week from today, although one segment of the industry is ready to go along partially on the United Steelworkers' (CIO) demands for a pension, Inland Steel Corporation of Chicago, which employs about 16,000, opened the door on the pension issue last night. The steelworkers promptly closed it.

**INADEQUATE**

Phillip Murray, president of both the CIO and the steelworkers, didn't comment on Inland's offer. However, another union spokesman said the proposal was "inadequate" and said it will be rejected Monday.

### Philippines Lashed By Tropical Storm

MANILA, Philippines, July 9.—(AP)—A tropical storm which lashed the Central Philippines for 48 hours moved out into the China Sea today, leaving at least 12 dead and hundreds of thousands of dollars worth of property damage.

## SITUATION IS COVERED

SEATTLE, July 9.—(UP)—The Auto Machinists Union (Ind.), negotiating its 1950 contract, today demanded two pairs of clean overalls per man each week.

## Reds Release U.S. Consul

SHANGHAI, July 9.—(AP)—William B. Olive, a United States vice-consul, was released from jail by the Communists today. The Communist press said he "admitted his offences" and had apologized to police after being "educated."

Immediately after his release, Olive went into a closed conference with Consul-General John Cabot. Cabot would not permit Olive to comment on his three days in jail after being arrested in a minor traffic incident.

## EXERCISES, TOO

## 140-Year-Old Has Daily Dip In Icy Water

MOSCOW, July 9.—(UP)—The official Tass News Agency reported today that a 140-year-old man lives and works in the village of Lerik in Azerbaijan.

Tass said he was a collective farmer named Mahommed Elvazov, who keeps fit with daily setting-up exercises and plunges in a cold mountain lake. His eldest daughter was said to have passed the century mark recently.

Elvazov learned to read and write when more than 100 years old after the revolution, Tass said. He is an active member of the board of directors of a local collective farm, the agency reported.

## BOY'S HEALTH AT STAKE

## *Desperate Housing Move Runs Into Heartless Law*

VANCOUVER, July 9.—(CP)—Law books weigh more on justice's scales than the public's heart.

RCAF veteran Gordon C. Cook, 26, took three years to find this out and it may cost him the health of his four-year-old boy to prove it.

Cook broke the judicial law last May when, in desperation, he moved into an empty house belonging to Central Mortgage and Housing Corporation in an attempt to save his ailing child from the ravages of rheumatic fever.

Forced by lack of accommodation to live in a series of river shacks, cockroach-ridden hotel rooms, and damp basements, the veteran of four years service watched his sick child until finally he could stand his nightly screams no longer.

He "squatted" in an empty house and defied all efforts to dislodge him in hopes that by some "miracle" the house might become his.

Now there is an eviction order entered against him, but he has no intention of moving until forced out.

"I'm going to stay right where I am," he said today.

"The people are behind me."

John McCullough, rentals manager of CMHC, said Cook had filed an application for a house here when he was discharged in 1946. But McCullough was not allowed to allot houses to veterans who had enlisted in any city but Vancouver. Cook had signed up in Saskatoon. The law was changed last April.

"What could we do?" said McCullough. "his application only became effective last April and there are hundreds of veterans in an equally difficult position who are ahead of him on the list." The corporation was granted court order this week to have Cook and his wife and children evicted.

Mr. Justice H. S. Wood admitted that Cook might "have a moral right to the house" but was *forced to charge him with "wrongful entry to property"* because "apparently he has no legal right to live in it."

Veterans organizations and dozens of sympathetic citizens are trying to help Cook find a new home, but so far the search has been unsuccessful.

## Canada Decision Soon To Speed U.K. Buying

By Harold Morrison

OTTAWA, July 9.—(CP)—Canada likely will make a decision soon, an informed source says, to discourage spending in the United States and accelerate spending in the United Kingdom as the Dominion's part in easing Britain's dollar crisis.

This policy, said the source, will be one of the factors which Finance Minister Abbott will discuss with U.K. and U.S. counterparts during international financial discussions now proceeding in London.

It will mean generally that those U.S. commodities which still have not been lifted from import restrictions will continue to be banned from Canada for some time to come. Other shipments, regulated through quota arrangements, will continue to be regulated to keep to a minimum Canada's expenditure of dollars.

**DOLLAR RESERVES IMPROVE**

The government first started import restrictions on U.S. goods back in November, 1947, when the Dominion's dollar status began to deteriorate to a dangerous low level of less than $500,000,000.

Since then Canada's dollar reserves have been steadily increasing and now are almost touching $1,000,000,000.

With steadily-increasing reserves, the government from time to time lifted the ban on some American goods and placed others under a quota basis. Further easing now is unlikely.

Under the ban are a large variety of machinery and manufactured goods which can be produced in Canada at slightly higher cost.

The new trading approach is not expected to affect such basic commodities as cotton, coal, petroleum and structural steel, on which there is no import restrictions. Canada depends on the U.S. for the greater part of those supplies.

**GALE-SHREDDED SAILS** of this craft testify to fury of the squall which lashed the metropolitan area of New York early this week. Hundreds of boats were swamped.

## *JUNIOR AIR SHOW WELCOMES PUBLIC*

Tomorrow is the day.

The public is invited to the Edmonton Bulletin Junior Air Show.

Model aircraft of all shapes and sizes, powered by rubber, gas engines and jets will be flown at Namao airport to decide Alberta's entry in the Canadian National Model Airplane contest in August.

Flying starts at 9 a.m. and continues all day. Special arrangements are being made for spectators.

Grand champion will be guest of Edmonton Bulletin at Toronto and then at Detroit as guest of Chrysler Corporation and Kenn's Garage.

Everyone is welcome, and there is no admission charge.

See you at Namao tomorrow.

# It Happened TODAY

## The Nation

Scouts from every province in Canada will be on hand when Viscount Alexander, the Governor - General and Chief Scout for Canada, officially opens the first Canadian Boy Scout Jamboree July 18.

# School-Age Kids Jam Playgrounds

## Summer Holidays Release Hundreds of Eager Children

Attendance at playgrounds has increased this past week with large numbers of school age children taking advantage of the leadership and the games, sports, and play equipment supplied by the Recreation Commission.

Co-operation of Community Leagues in the use of grounds and building for program and equipment storage has made a large scale program possible.

A tour of the play grounds and talks to see active programs in operation with hundreds of children participating in games, stories, crafts, sports, and special organized program days, indicate good leadership in the healthful out-of-doors, is an interesting experience.

### FOR PROTECTION

A number of rules and regulations for the protection of children on the playgrounds have been established and the co-operation of children, teens, and adults will be appreciated in order to make the playground a safe place to play. These rules are listed for the information of children and parents:

1. Do not ride bicycles on playground area.
2. Do not stand on swings.
3. Do not ride double on swings
4. Chair swings are for children under 8 years of age.
5. Do not climb up slide ahutes, use the steps.
6. Do not play in sand boxes at base of slides.
7. Do not throw sand.

### NEW EQUIPMENT

The Alberta Avenue Community League has purchased and installed swings, slide, saws, and sand boxes on their rink area and community volunteers for free play supervision have been organized. Steve Mendryk will assist with program operation on Monday and Thursday morning of each week.

**Westwood**—The Puppet Club presented "Cinderella" last week with good results. The handicraft classes are making games equipment for the young children. A Pet Show scheduled for Friday, July 8th with one cent entrance fee for each animal. Winners in the July 1st program included. David Darling, Sandy Clark, Glen Walker, Betty Elliott, Ronnie Sullivan, Donna Reid, Glenda Johnson, Bruce Clark, Olga Kozel.

**Parkallen**—The program has been expanded to include more activity for the 6 to 12 year olds. A Rhythm Band was started last Saturday with children making their own instruments. A craft period for older children will be held on Tuesday, Thursday, and Saturday afternoon. Model aircraft classes will be held on Saturday each week at 2 p.m. with Mr. Roberts instructing. A Doll and Pet Show will be held on Thursday, July 14th.

**Pleasant View** — Treats for the children at the July 1st program were provided by the "Pleasant Teens" who also helped with the program. Pirate costumes, parade, treasure hunt, and races included on the program. A Birthday Party honoring the children who had birthdays in June and July will be held on July 12th, at 2 p.m. A Doll and Pet Show will be held on July 19th.

**Borden Park** — Special classes have been organized to operate at the park stride, saw cave, rattle tower, and a horizontal ladder have been installed here with a tremendous increase in attendance.

**Kitchener**—The second Birthday Party of the season will be held on July 15th. Track and field practices and a picnic lunch is scheduled for Saturday, July 16th.

**Forest Heights**—A Pet and Doll Show is scheduled for July 15th. Prizes will be given in each of several classes including largest and smallest pet and largest and smallest doll.

**Knob Hill** — A most successful program was held on July 1st organized and operated by the Community Committee. A fancy dress and Decorated Vehicle Parade, races, ice cream and cup cakes, a bonfire and weiner roast, all included on the list of activities. A Doll and Pet Show will be held on July 15th.

**Tipton**—Large numbers of children of all ages using the facilities for play here every day. A Birthday Party is planned for July 13th at 2:30 p.m. Mothers of the children are co-operating on this program. A fine handicraft table has been constructed by community volunteers. Emily Clark was the winner of the family doll and Teddy Pillard for the funniest doll at a recent doll show.

**Ritchie**—The winner in the missing tooth contest was Judy Michaela, age 6. Pat Palmer and Leslie Bremness won the prizes for fancy hats. The first Birthday Party will be held on July 15th at 2:30 p.m. The following mothers are assisting: Mrs. Bremness, Mrs. Michaela, Mrs. Topping, Mrs. Haweelak, and Mrs. Rogers. More volunteers are required. An handicraft display will be shown. An industrial tour for boys and girls 8 years and over was scheduled for this week with a group of 30 going through the South Side Creamery.

**Eastwood**—The program is being extended to include activity for a large group of school age children. A visitation program has been arranged for July 15th when children at Eastwood play hosts to those from Elmwood. A Mother's meeting will be held on Monday, July 18th, at 8 p.m.

**Boyle Street**—A Stilt Contest was on the program this week. Sports and athletics are very popular with the children of all ages. Play school is held each morning at 10 a.m. with crafts, games, and singing for the 8 to 12 group each afternoon.

**R.C.A.F.** — A field day for the little folk was held last Saturday with a parade, sing song, races, and a picnic lunch. On Saturday, July 16th the children will visit at Eastwood Trailer Park, all children should meet by 2 p.m. sharp at the playground to travel together to Eastwood.

**Jasper Place**—A model aircraft group is being organized with Mrs. G. Cote assisting. The morning program is planned especially for children under 8 years of age. The afternoons for the two races and the evenings set aside for sports of all age groups. A cycle bike to Capilol Hill is planned for July 15th to leave the playground at 5:15 p.m.

**Elmwood** — The playground is being used by an increasingly large number of children and adults. On Friday, July 15th the children will meet at the playground at 2 p.m. to travel to Eastwood for a "Friendly Invasion." Each child should bring a lunch, 2 ear tickets, and a note from Mom or Pop giving their permission to attend this program.

**McCauley** — Assistance of community residents is appreciated by the Director . The program on July 1st was more successful because a number of people volunteered their services. Mr. Madsen, Mrs. A. Tardiff, Mrs. K. W. Scott, Mrs. A. O'Roy, and group of teen agers gave valuable assistance. A Freckle Contest, Story Telling Contest, treasure hunt, Paster Contest, were the events on the program. A Birthday Party is being planned.

**North Edmonton** — The playground will not be supervised on Monday and Thursday mornings but regular schedule will be maintained all other days.

# Six Are Hurt In Collision

MONTREAL, July 9.—(CP)—Six persons were injured, three of them critically, early last night following a collision between a taxicab and a radio police cruiser at the downtown intersection of University and Milton streets.

The vehicles spun around six times and finally came to a stop 40 feet away from the crash.

Critically injured are:

Constable Frank Mullins, 38, injuries to the leg and neck, a fractured skull and internal injuries.

Constable Adolphe Nache, 27, driver of the squad car, a skull fracture.

Taxi driver Germain Beauregard, 38, internal injuries and a probable fracture of the spine.

# Hail Insurance Requests Start

CALGARY, July 9.—(CP)—Crop damage from hailstorms in various parts of the province last Tuesday and Wednesday, has resulted in a number of claims being filed with the Alberta Hail Insurance Board, J. Glen Elder, chairman, said last night.

The storms were scattered, and damage was spotty, he stated, but so far no serious loss has been reported.

Wednesday night a storm occurred north of Calgary in the Balzac and Cheadle areas, and in the Strathmore district where some damage was reported.

# Large Building Program Here

(Continued from Page 1)

only awaits confirmation of re-zoning of property on 103 street south on 100 avenue to start work on $100,000 office building.

Plans for a $250,000 warehouse and office building for Canada Alberta Ltd., are being prepared, and are nearing completion. Tenders for this project will be called within the next few weeks. Site for the building was purchased from the city several months ago.

Pilkington Glass, Ltd., are calling for tenders for erection of addition to plant on 105 street. This project is estimated at $200,000.

### NEW GRANDSTAND

Demolition of the grandstand at the exhibition grounds will start immediately following the summer fair to be replaced by a concrete and steel structure with a seating capacity of 8,000. Cost of this project is estimated at $500,000.

Arctic Ice Co. recently announced construction of new plant to cost $150,000, and plans are now being drawn for a $600,000 office building on south side of Jasper avenue immediately west of Royal Bank building.

Beatty Bros. Ltd., recently announced intention to proceed with construction of a $200,000 warehouse and office building. Site for this was purchased some time ago from the city.

Tenders also have been called for construction of St. Patrick's church. This project is estimated to cost $120,000.

### SCHOOL CONSTRUCTION

School construction accounts for $600,000 of the city's building total. Permits will be taken out next week by the Edmonton Public School Board for construction of two elementary schools. Cost of these schools $405,000.

Edmonton Separate School board has called for tenders for construction of two schools to cost approximately $200,000.

Permit also will be sought next week for $275,000, covering alterations and repairs to the Northern Hardware Co. Ltd. building.

Ralph H. Trouth, Edmonton and Vancouver contractor, contemplates a $150,000 addition to El Mirador apartments, 10147 106 street.

### TWO NEW THEATRES

Famous Players Canadian Corporation announced recently that start would be made soon on a theatre in the 100 block on the south side of Jasper avenue, and also a community theatre in the Highlands district. These projects are estimated to cost $500,000.

Housing construction in the city during the next two months is expected to exceed the $5,000,000 mark.

Projects listed are 250 veterans' rental housing by Central Mortgage and Housing Corporation and 200 rental home project by M. D. Muttart.

District projects include a school at Wainwright to cost $200,000 two stores at Lloydminster costing $100,000 and $50,000 school and civic centre at Athabasca. Cost of these projects is estimated at $230,000.

A $55,000 theatre with seating capacity for 450 is to be erected at Calmar.

St. Paul school district has called for tenders for the erection of a 12-room school to serve its growing pupil population.

Imperial Oil Limited, recently announced a 70-house project for Redwater, and Central Mortgage and Housing Corporation has called for tenders covering erection of 25 houses at Ponoka and 50 at Red Deer.

# Flight to Australia New Canada Air Step

VANCOUVER, July 9.—(CP)—Canada's expanding aviation takes four-engined Canadair aircraft leaves Vancouver's international airport on its inaugural flight to Australia.

The shiny new Empress of Vancouver is starting the Canadian Pacific Air Lines' service to the dominion "down under".

Aboard on the inaugural flight will be 30 passengers—half aviation and communications officials and half newspaper men.

In Sydney on Thursday (Wednesday, Vancouver time), the plane's passengers will lunch with Sydney's lord mayor.

The travellers are also to attend functions in Honolulu and the Fiji Islands.

### CULMINATES DREAM

For Grant McConachie, CPA president, the service to Australia will culminate a dream created about the time he was a "short pants" flier on the prairies.

Mr. McConachie will be aboard the Empress of Vancouver when it leaves Sunday.

Also making the flight:

Senator James A. MacKinnon, minister of mines and natural resources; W. J. Turnbull, deputy minister of trade and commerce; J. G. Turgeon, deputy postmaster general; J. P. R. Vachon, member of the air transport board; W. A. Rundle, Vancouver board of trade; A. C. Macdonald, executive assistant to the president, Canadian National Railways, R. L. Cliff, Vancouver.

Clarence Campbell of Toronto, president, National Hockey League; C. H. Dickson, DeHavilland Co., Toronto; H. B. Main, Canadian Pacific Air Lines.

Jack DeLong, Edmonton Bulletin; Gordon McCallum, Vancouver Province; Ed Martin, Vancouver News-Herald; Jack Webster, Vancouver Sun; Frank Tang, Victoria Colonist; Ewen Irvine, Montreal Star; George Langlois, Montreal La Presse; Gerald Waring, Montreal Standard; Irenee Mason, Le Soleil, Quebec; Roy Thomson, Thomson Dailies, Toronto; Harold G. Long, Lethbridge Herald.

F. J. Turner, the Canadian Press, Vancouver; D. B. Rogers, Regina Leader-Post; Bill Herbert, CBC, Vancouver; H. T. Coleman, Montreal. CPR public relations and Philippe Delisle, CPR public relations.

# Stampede Queen Dispute Flares

(Continued from Page 1)

sponsoring organizations—all charitable groups.

Mr. McCormick charged in his letter that the St. John Ambulance Brigade turned over to the travellers "all, or nearly all, of the money received by St. John Ambulance on the sale of tickets." This would give Mrs. Stier, he said, about twice the number of votes to which she was actually entitled.

In reply to the shoe retailers charge, the following statement was received from Pete Sande, president of Associated Canadian Travellers and William Pollard, chairman of ACT's stampede queen committee:

"As previously announced, the votes recorded in favor of Mrs. Merle K. Stier were announced by cash and stubs of tickets in accordance with the regulation of the contest. The association has not in previous years or this year inquired into the amount of proceeds or sales of tickets retained by sponsoring organizations.

"The association has always made it clear that such funds could be used by any such organization as it saw fit.

### PRESUMED WINNER

"It is unfortunate that this year the Canadian Shoemen's Retailers Association had presumed that the candidate for Girls Town, supported by them, was to be the winner of the contest and some time before the contest closed had so announced in their trade journal.

"The June issue of the journal carried a photo of Miss Marion Birchall entitled Miss Calgary Stampede 1949, and Miss Footwear, 1950. It appears that the failure of Miss Birchall to win the contest has interfered with the proposed extensive advertising campaign featuring Miss Birchall as Miss Footwear 1950 and Miss Calgary Stampede 1949."

# Sight Returns After 18 Years

HOPKINTON, Mass., July 9. — (AP)—Totally blind for 18 years, Edward R. Ray, 63-year-old masseur, said yesterday his sight had returned.

"It's true," he told newspaper men happily. "I'm sitting on top of the world. In fact, it's a whole new world."

Ray said his eyesight came back to him suddenly Wednesday.

Ray's optometrist, Dr. Edwin T. Olson, called the event "a most astonishing thing."

# Tick Ticks Off Hollywood Star

HOLLYWOOD, July 9.—(UP)—Film star Bette Davis was confined to her home today with tick fever apparently contracted on a Lake Tahoe location trip.

The actress had to stop work on her current film four days ago, but Warner Brothers studio officials said she should return next week.

# Vatican Aide Is Arrested

PRAGUE, Czechoslovakia, July 9 —(UP)—Czech police have arrested Father Ludwig Smerzlik, Catholic priest who served as secretary and interpreter at the Papal Nuncio's office here, it was learned today.

Reliable sources said Father Smerzlik disappeared Thursday after he had said mass at a nunnery across the street from the Nuncio's office.

Msgr. Gennaro Verolino, Vatican representative in Prague, protested the arrest to the Szech foreign office yesterday.

The arrest followed an intensified propaganda campaign by Czechoslovakia's Communist government against the Vatican. Members of the cabinet and the controlled press accused the Vatican of joining Anglo-American interests in inciting Czech Catholics against the government.

# Mindszenty Term Stands

BUDAPEST, July 9.—(AP)—Hungary's highest court today confirmed Joseph Cardinal Mindszenty's life prison term for treason, but said he should have been sentenced to death.

The appeals court president declared "there is not the slightest doubt" that the stubborn anti-Communist Roman Catholic primate should have been executed.

But, he ruled, the case "lost its original importance with the arrest and sentencing of the Cardinal—the people, the Roman Catholic masses, calmed down and the abominable consequences of the case died away."

The court sealed down prison terms of three men sentenced as accomplices of the Cardinal but let the sentences of three others stand.

Rev. Ondras Zakar, former secretary of the Cardinal, had his six-year prison term reduced to four years.

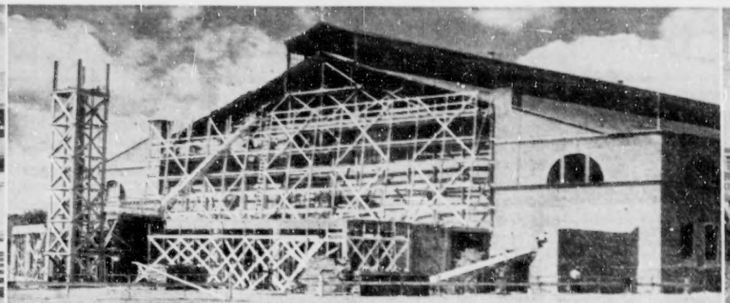

## *Exhibition Grounds Get Face Lifting for Fair*

Women's building which will house one of finest displays of culinary art has undergone extensive repairs as Edmonton Exhibition board prepares for its annual banner fair slated for July 18 to 23. Fair this year is expected to be biggest ever held in west.

Even Arena is coming in for its share of repairs. Face of building gets new look as exits and seating capacity are enlarged in an effort to make Arena one of finest in west. This year's exhibition will feature a full display of livestock, machinery, manufacturing, sideshow and a full program of racing for every day of the week. Directors forecast most successful fair in history this year.

Railway siding is necessary this year to handle large flow of exhibits coming to fair. Siding will also be used to handle 70 steel cars being shipped in containing Royal American shows which will provide entertainment this year.

# Tea-Leaf Soothsayers Making City a Mecca

By John McLean

This city, which has been described at times as the Gateway to the North, the Oil Capital of Canada and the City with a Future, is rapidly taking shape as the nation's foremost mecca for tea-leaf soothsayers.

This is no idle statement, as a walk down Jasper avenue will testify.

At least three restaurants in two city blocks are luring the su . . . (customers, that is) into their eateries by advertising teacup reading.

Did you ever go in for one of these sessions of beverage prognostication?

If you haven't you haven't lived.

The process of gulping down the tea is but a preliminary to the main event.

**FUN STARTS**

It's after you have poured the steaming brew down your gullet that you begin to get your money's worth.

Usually the little lady in the gold ear rings fixes off to a flying start. She whispers confidingly that there is a blonde in your life (as if you didn't know) and that you are going to come in for some money.

**It's at that point that you begin to doubt the powers of this forecasting female.**

I don't know how it is with you, but with me they always avoid my past as they would the plague.

Perhaps they operate on the theory that the truth hurts and only satisfied customers come back for more.

At any rate, although my past is an open if somewhat thumb-marked book, these frustrated crystal-ball-gazers deal only with the manana aspect of my life.

And without fail they always send me away on a happy note.

At least four of them have forecast my demise as scheduled for my 40th year.

Ah, well, only the good die young. But from now on I'm drinking only milk shakes.

# 70 Youngsters To Get Break At New Camp

Seventy lucky Edmonton boys, who would otherwise never leave dusty city streets, will spend 14 glorious days in the country this summer, thanks to the Federation of Community Leagues.

The league's camp this summer will be a small scale model of the organization which will be developed during the next few years, said acting probation officer D. R. 'Doc' McNaughton.

"Ultimately we hope to be able to handle as many as two or three thousand boys for two weeks every summer," he continued.

Camp will be for underprivileged children who could otherwise not afford to leave the city. There will be no charges. Boys will only be required to bring personal effects.

"The purpose of this camp is to reduce juvenile delinquency," said Constable McNaughton. We want to get these boys out of town where they can get a chance to better themselves. Often a youngster gets a feeling of frustration when he sees the boy next door getting away to camp.

The camp, which will open about August 1, is located on the banks of the Sturgeon River about a mile from the mouth. The Sturgeon enters the North Saskatchewan near the town of Fort Saskatchewan.

The 80-acre tract, covered by birch and evergreen, has been donated by F. J. Fordham, a farmer of the district.

Cost of the project will be about $2,000. Part of this has already been put up by local business men, but a large sum remains outstanding. Contributions by the general public are asked.

## Iran Asks Grain From Pakistan

KARACHI, Pakistan, July 9.—(AP)—Iran asked Pakistan yesterday for immediate delivery of 6,000 tons of wheat and 2,000 tons of corn. The grain is badly needed, Iran government officials said, because of a serious threat of a famine in Seistan province.

## Police Issue Driving Warning For Bridge

Another 'chain reaction' collision was set off last night on high level bridge.

Grills and fenders crumpled as three cars hit, one after the other, each driving into the preceeding car, 'accordian like'.

Police remarked that this type of accindent happens too frequently.

Edmonton motorists are warned to drive at a greater distance behind each other while crossing this bridge.

On good roads and with 100% brakes a car going 25 miles per hour (speed limit on bridge) takes 45 to 55 feet to stop. Motorists crossing this bridge drive too closely behind each other and if one car in chain suddenly stops, two or three cars will inevitably ram, police say.

## Hit and Run Truck Blamed

Hit-run truck which killed 10-year-old Gerald Elwood Shalin, 11018 85 street, July 4, near intersection of 112 avenue and 74 street, was on the wrong side of the road at time of collision, a coroner's jury found yesterday.

Less than an hour after the youngster had started his summer holidays, the truck, driven by 16-year-old, struck him down as he rode his bicycle on 112 avenue.

Witnesses stated he was passing a motor street sweeper proceeding east on 112 avenue near the corner of 70 street. Approaching from opposite direction were two trucks. As they drew abreast of sweeper truck, behind started to pass and struck the lad.

The lad was rushed to Royal Alexandra hospital where he was found to be suffering from fractured skull and brain lacerations. He died eight hours later.

## Japan-Belgium Trade Pact Signed

TOKYO, July 9.—(AP)—A trade agreement was signed today between Japan and the Belgian monetary area. Trade will begin May 31, 1950. The Belgian monetary area includes Belgium, Luxembourg, the Belgian Congo and the trusteeship territories of Ruanda and Urundi in East Africa.

# Montreal-Toronto Pipeline Planned

## 10-Inch Line Would Supply Needs of Ottawa, Toronto

TORONTO, July 9.—(BUP)—Three major oil companies have formed a syndicate to build a $10,000,000 gasoline pipeline from Montreal to Toronto, via Ottawa, it was learned here last night.

The 10-inch pipeline would carry enough gas to supply the needs of both Ottawa and Toronto, and would likely bring about a reduction in the price of gas, it was said.

The three companies now holding conferences on the proposed pipeline were: Imperial Oil Ltd.; British American Oil Co., and McColl-Frontenac Oil Co., Ltd.

**ROUTE KEPT SECRET**

It was learned that the companies had set up a syndicate known as the Northern Pipeline Ltd. to build and operate the pipeline.

The route of the line has been kept secret while land was purchased.

Senior officials of the companies involved declined to comment directly on the plan, but admitted that the proposal is being studied.

**FALL START**

It was reported that construction will begin in the fall, and it was hoped to have the line completed within nine months. Booster stations would be built at intervals along the line's 400 mile length to maintain pressure.

It was reported in Ottawa that the scheme had received the approval of both federal and provincial authorities.

It was estimated that the line would cost $10,000,000, but an executive of one of the firms involved said the economic factors are still being studied.

# New TCA Space Plan Means Loss to City

A readjustment of Trans-Canada Airlines' own teletype circuits to bring flight dispatch and space control offices together will take place early this fall, it was announced here today.

Gordon Hooper, TCA space control manager for western Canada, said the move will provide greater efficiency in allotment of seats throughout the western region and will be more economical from a company standpoint.

**30 TO LEAVE CITY**

Installation of the new teletype circuit will be completed July 10 between Winnipeg and Vancouver to encompass intermediary points and add to the operational efficiency of the line.

At the moment the majority of prairie flights are dispatched from the Winnipeg dispatch office and with seating arrangements presently controlled in Edmonton, Mr. Hooper said the closer tie-in of the two departments will aid greatly to the service.

It is planned the entire staff of 30 members of space control will go from here to Winnipeg under the new setup.

## Film Causes Riot

AMSTERDAM, July 9.—(Reuters)—Communist demonstrators and a strong force of police clashed last night outside a theatre where the American film about Soviet espionage, "The Iron Curtain," was being shown.

## 200 Uranium Claims Staked In East

WINNIPEG, Man., July 9.—(BUP)—About 200 uranium claims have been staked in the southeastern area of the Whiteshell forest reserve, chief recorder R. Cox announced.

The area is west of Ontario's Kenora mining division, where about 200 claims also have been staked.

# Strange Oversight Here

At some time before June 30th the city of Edmonton and the Canadian National Railways agreed to make a joint application to the Alberta legislature for an amendment to the city charter fixing taxation on the Macdonald hotel extension at $75 a room.

The special session of the legislature opened on July 4. It came to an end Thursday.

By what strange oversight or excess of red tape was this amendment left off the agenda of the special session?

It seems hardly likely that the government would have refused to deal with the matter because passage of the required amendment would have taken no more than a few minutes.

If the government did refuse to deal with it, the public should be told and should know why.

If the chance to secure the amendment was passed up through fault of the city or the CNR, the public is equally entitled to know about it and to be told so.

This is a modern age enjoying all the benefits of telegraph and long distance telephone.

Surely no cumbersome exchange of documents between Edmonton and Montreal was a prerequisite to getting this new arrangement before the legislature at the earliest possible moment.

The Macdonald extension project has languished and stalled along for a matter of years.

Active negotiations have been going on for more than a year.

And, then, when the final agreement is made eliminating the last obstacle to an immediate start on the addition, somebody muffs the chance to legalize the deal and thus expedite the work.

The need for this extension is desperate in Edmonton. It grows more desperate as the population enlarges month by month, week by week and day by day.

If there was sound reason for this apparently inexplicable failure to seize the chance offered by the special session, somebody should explain it.

And the explanation should be good.

# One Detention Home Not Enough

The escape of two Vancouver delinquents from the Optimists' Boys Home this week proves conclusively that one detention home for juveniles is not enough in a city of Edmonton's size.

These boys, aged 15 and 17, have a bad record.

Apparently they are determined to pursue a life of crime.

Unhappily, there are boys of that kind and of that fixation. And no formula of reform has been devised to successfully deal with them.

So when these two boys were put in the Optimists' Home they found it easy to escape because the honor system prevails, quite properly, in that institution and there wasn't much of a trick to getting away.

The honor system is not very effective among boys who are bent on proving they have no honor.

Now this situation poses a perplexing problem.

Should the Optimists' Home be geared up in discipline and custodial precautions to fit the needs of really bad boys, such as these appear to be, or should it remain as it is, adjusted to the needs of boys who have made a mistake?

If the former step is taken, it will impose an injustice on boys who respond to the honor system, which means most of them.

If the latter step is taken, the institution cannot possibly be used to confine the more desperate type of boy.

Obviously two separate detention homes are needed in Edmonton.

# Trucks Parked in Residential Areas

While the civic bylaws committee is framing rules to govern the use of trucks in the wholesale area, its members might put in a little something about the parking of trucks in residential areas.

Almost every residential street throughout the West End is dotted every night with trucks of all sizes.

Somebody should make it clear that residential kerbs are not garages.

This practice is undecorative. It is dangerous to passing traffic. It is an imposition on householders.

And it should be stopped.

# 'Forgive and Ye Shall be Forgiven'

The title of this article is taken from the 6th chapter of St. Luke's Gospel and contains such a profound Christian truth that its meaning cannot be overemphasized.

The context, beginning at the 36th verse, reads like this:

"Be ye therefore merciful, as your Father also is merciful. Judge not, and ye shall not be judged; condemn not, and ye shall not be condemned; forgive, and ye shall be forgiven."

Now stress is laid by our Lord upon forgiveness in an even more significant passage than this.

For in the prayer which He taught to his apostles and which they, in turn, have taught to all Christendom, is exactly the same meaning:

"Forgive us our trespasses as we forgive them that trespass against us."

Man, in other words, is exercising his very highest spiritual function when he forgives those who have injured him just as God Himself exercises a high divine function when He forgives men.

Man never approaches closer to the divine than when he forgives.

There is no closer imitation of Christ than in forgiveness.

It is remarkable to note that St. Matthew, in the corresponding passage in his Gospel, writes "Be ye perfect" instead of "Be ye merciful."

Perfection, then, is interchangeable with mercy in this sense.

It is clear, then, that the perfection of God is His mercy.

Indeed, the perfection of God must be His mercy if it caused Him to give His Son for us, the just for the unjust, that Christ might bring us to God.

## The Thrill That Comes Once In a Lifetime

By Webster

# Letters to the Editor

### Pinkish Pantaloons

Editor, Bulletin—Depicting Col. George Drew as the villain of the piece, Liberal journals are now quite certain that he was the cause of the Liberal landslide.

"Panem et circenses"—family allowances and the movies—this is what appealed to the habitant with his 10 children. This caused the avalanche.

In other words, our Liberal opportunists ran off with the CCF pink pantaloons, and the disguise won the election.

R. G. B.

Edmonton.

### Circus Signs

Editor, Bulletin—In reference to your chalked-up telephone poles, similar markings have appeared on poles in this town. But we know who did it!

Recently King Bros. brought their circus through here, so to keep their trucks from straying from the leader, they were observed putting the above mentioned signs on the telephone poles.

The show came from the east and was travelling west, so perhaps it's their signs that you people in Saskatoon and Edmonton are so puzzled over.

VERMILIONAIRE.

Vermilion, Alta.

### Disgruntled Immigrant

Editor, Bulletin — Two years ago I arrived in Canada as an immigrant with wife and family from the Old Country. I came over here hoping to give them a better chance in life.

How sadly disillusioned I have been.

First of all, I arrived with boundless energy and enthusiasm. After being kicked around from East to West I have finally come to the conclusion that Canada is not the country it's cracked up to be.

I don't know of one redeeming feature compared with the Old Country.

Your housing position here is really terrible—have been in houses where the landlords should have been prosecuted for excess rent, also the filthy conditions of those no better than shacks.

There is absolutely no security here—have been particularly struck by the floating population. Having travelled this world extensively I have no hesitation in saying that Canadians are one of the most unhappy of peoples. Where is that home life? No sir, they just drift from hotels to beer parlors and cafes. Also I have noticed the large number of single men in Canada. I don't blame them, for they know better.

I could go on long enough but space will not permit.

In concluding, I look forward to that day when I can shake the dust and mud of Canada off my feet. Unfortunately it will take years to do, but I'll make it in the end.

By the way, have just heard recently of two DP families going back to their own country. That's the last straw.

Would like to sign my name but I know the boss would fire me.

ONCE BITTEN, TWICE SHY

Edmonton.

### Sunday Milk Deliveries

Editor, Bulletin.—Last February it was decided to stop deliveries of milk on Sundays. A good many were doubtful then about the wisdom of the move. Now several months have passed, and the matter is again under discussion, especially as Edmonton is enjoying summer weather.

The Canadian Association of Consumers is most anxious to serve the public in every way possible, and to find out whether consumers are satisfied with six-day delivery, particularly those who have no refrigeration.

The secretary would be very glad to receive letters or telephone calls from those interested telling whether they have refrigeration, how many children there are in the family, and if they find it satisfactory to have no deliveries on Sunday. A good response would provide a basis for further action, if required.

Please write the secretary or telephone the president, Mrs. F. J. Conroy, Phone No. 27450.

(MISS) A. JACKSON, Sec.,
Prov. Branch, Can. Assn. of Consumers.
35 Cattistock Block.

## Smiles

John Randolph and Henry Clay once had an argument in the U.S. Senate. It was such an angry quarrel that they did not speak to each other afterward for quite a while. One day they met on Washington's Pennsylvania avenue where the sidewalk was very narrow.

As Randolph came up, he looked Henry Clay in the eye, and not moving aside an inch, hissed, "I never turn out for scoundrels!"

"I always do," said Mr. Clay as he stepped politely off the walk and let Randolph pass.

## Today's Text

He that by usury and unjust gain increaseth his substance, he shall gather it for him that will pity the poor.—Proverbs 28:8.

# From Today's News

By James D. White

As the cold war moves in on the Allied occupation of Japan, one of the first big problems is this:

Are the Japanese police going to indulge in some good old-fashioned terror before Communist agitation is dealt with?

It's all extremely complicated. For instance, one root of the problem is the fact that there are too many people in Japan. This means more workers than jobs. It means too many people working for the government. It means a government afraid to fire them.

This government has a lot of pre-war politicians in it, like Premier Yoshida. His cabinet, and those of earlier post-war premiers, have been told many times to cut expenses, to run a more efficient administration.

Last winter occupation officials got specific. They said "balance the budget."

The government stalled. Finally it was told to weed out some of the deadwood among its own employes.

It turned to the bloc of government workers who are most highly organized and under strong leftist influence—the railway and communications workers.

It was explained that firing the proposed 160,000 workers actually meant that only 140,000 would lose their jobs, because the other 20,000 were just fictitious names on the payroll. It seems this is an old Japanese custom so that appropriations for government departments can be kept high.

Naturally, there was trouble with the workers, with the Communists egging them on. Right in the middle, Russia suddenly decided to return thousands of Japanese prisoners of war held since VJ-Day. By now they are thoroughly indoctrinated and many joined in the riots and strikes.

Keeping law and order is harder now. The Japanese government began talking about reorganizing the police along lines which would restore some of their pre-war power, which was plenty.

Premier Yoshida tried to fire one police chief, over whom he had no authority under a post-war law designed to take the police out of politics.

His government is fiddling with ideas like "centralizing" the police, and creating a "police intelligence service," or another secret police.

Meanwhile, after Gen. MacArthur, the allied supreme commander, wondered aloud in public on July 4 whether Communists are entitled to legal standing, there is talk of outlawing the party.

The Reds of course claim to be fighting the workers' battle, and non-Communist labor unions are caught between the violence of riots and the possible violence to which the police may return to surpress such activity if they are given the power.

# Looking Backward

### 1889—60 Years Ago

Weather on Saturday was just suitable for a day of sport and the turn out of visitors from the surrounding country was very large. Track was in good condition. G. W. Bishop, R. G. Hardisty, A. Dunn, F. A. Osborne, Percy Hardisty, J. Fraser, W. West, Campbell Young, Emma Rowland, Bessie Munro, F. Adamson were among the winners in the various events.

### 1899—50 Years Ago

Friday's train was only six hours late, despite heavy rains.

Peter Loutet is in town from Fort Chipewyan.

J. R. Boyle and F. C. Jamieson concluded writing on their law examinations.

### 1909—40 Years Ago

Archdeacon and Mrs. Lettis arrived last night from Great Britain, on their way to Fort Simpson.

Contract for the GTP workshops to be built on the property secured by the company north of the city will be let in a few days.

Plans are now underway for the erection of a large Masonic Temple near the heart of the city.

### 1919—30 Years Ago

London papers are opposed to the trial of the ex-Kaiser being held in London. They say that the trial should be held in a more neutral centre.

Chief of Police Cuddy has been appointed commissioner of the provincial police.

Ottawa: Sir Thomas White, minister of finance, has resigned, ending a notable career in the public life of Canada.

### 1929—20 Years Ago

Ottawa: The "Little Bowler" took the air again today somewhere in the Hudson Bay country, but in what neighborhood could not be ascertained.

Dr. R. D. Martin is being sent by the Dominion government to Coppermine, to look after the health of the Eskimos.

Fire losses in Alberta last year averaged $2.14 per head of population. These were the highest figures for any province.

### 1939—10 Years Ago

Winnipeg: Present crop prospects presage a half billion bushel wheat crop and the 24,800,000 acreage promises to better than average 20 bushels. This figures out at approximately $14 per acre to the farmer for each acre he can harvest on that scale.

Prime Minister Chamberlain told the house of commons today that Great Britain is "firmly resolved" to carry out her pledge of assistance to Poland should a German coup within Danzig cause Poland to fight for her independence.

# One Man's Viewpoint

By Stan Ross

There is nothing so short-sighted as the policy of both the Dominion and Provincial governments to do nothing about the dust hazard on many of the main scenic highways.

All you need do is visit Jasper or Banff and talk to a few of the tourists in order to discover that the common complaint is about the dust on the roads.

In fact a recent group of Americans at Jasper decided that instead of trying to return by way of Banff, which would mean driving over dusty roads to Lake Louise, they were going to return to the States by way of Edmonton. When they learned that there were more miles of dust via Edmonton they gave up the idea.

## They Want to Miss Dust

Tourists from other centres are deliberately planning their trips on the basis of the fewest miles of dust. Thus if the dusty section between Edmonton and Jasper could be reduced below the dust distance between Banff and Jasper, you would find thousands of these tourists taking this longer route to Edmonton in preference to the Jasper-Banff road.

Just to show how serious this dust situation is considered by many tourists, one large group at Jasper refused to take any of the local sidetrips because of the dust. And their reports on returning home are going to be anything but enthusiastic. Oddly enough many of these tourists do not object to good gravel roads if those roads are free from dust. This would seem to indicate that dust-free roads are actually more important than hard-top.

In view of the situation it is difficult to understand any government that cannot appreciate the urgent need for some dust-prevention work on the highways.

The provincial government talks about the prohibitive cost of oiling the road to Jasper at a time when it obtains a few million dollars every few weeks from added oil revenues.

To say that it cannot afford an expenditure which would likely pay for itself in one season's tourist trade, at a time when the millions are rolling in, simply won't hold water. And speaking of water, that is one of the solutions being considered.

We will have a group of sprinkling trucks spraying water over 175 miles of thick dust while hundreds of vehicles use the road each day. You might as well give some school kids sprinkling cans.

## Just Useless Spending

They tried that on a section of road just a few blocks long in Jasper. By the time a few dozen cars had passed the dust was as bad as ever on that short stretch.

What hope could there be of keeping almost 200 miles of highway in better condition?

Why spend money on useless sprinkling?

Why not use that money for a bit of oil. If the province cannot afford to oil the whole road this year, is that any reason why it could not oil part of it?

Each mile that is oiled means a mile less of dust. If only 100 miles were oiled it would then mean that the dust-distance from Edmonton to Jasper would be considerably less than it is from Banff to Jasper. With all the traffic from the Coal Branch and Edson and intervening towns and farms, is there any good reason why the road to Edson could not be oiled.

That would make a tremendous difference and it would make the difference where traffic is heaviest and where improvement is most needed.

With all due respect to good intentions the old water-wagon system is just a bit antiquated.

It is time a bit of practical thinking was being done. It is time the public received a few more benefits out of the millions being obtained from oil and gas.

# Jack Scott

SCOTT

## Columnist To Tell All Horrible Facts About Nudist Camp

OUTSIDE SEATTLE — "The camp is just around this next bend," the man on the seat beside me said with a smile, and at that moment I'd have given a good deal to put my foot on the brake and said nuts to the whole idea.

My car was in low gear, climbing a rough and newly-bulldozed road through a heavily wooded slope about 25 miles southeast of Seattle. Around the next bend was a nudist colony of 250 inhabitants — men, women and children.

I lifted my foot tentatively to the brake pedal, but my mind was hearing the voice of my managing editor. "Go ahead," it was saying. "This is a chance in a lifetime. Are these people crackpots or not? What really goes on at a nudist camp? Go on down there and get the story."

This all began nearly two years ago. At that time I interviewed the founder of the first nudist club in British Columbia. Because it had been done so many times before, I resisted the temptation to be frivolous with the subject. I wrote it straight. And apparently a silent cheer went up from every nudist in the western provinces and states. "You must come and join us some time," they wrote. I laughed nervously and forgot all about it.

But they had not forgotten. Three weeks ago I received a formal invitation to attend the fourth annual Northwest Sunbathing Conference, made up of delegates from British Columbia, Washington, Oregon and Idaho.

The convention would be held at the home grounds of the Seattle club. It would be a forerunner to the first all-Canadian convention, to be held in the Fraser Valley in August. I would be the only outside guest.

RSVP, said the invitation.

### With Papers

To begin with, my whole family had been asked. ("Neither your wife nor daughter will find any cause for embarrassment or regret.") Unfortunately, the press of other engagements kept them from joining me.

I was to have no hesitation over the matter of dress. "I can assure you that is always optional with visitors," my host wrote. "You will probably want to be like the others in a short time, but if you were to remain entirely clothed during your entire visit there would be absolutely no comment. You will find the air of a well-conducted country club, minus any liquor or questionable stories, and with the added spice of friendliness where everyone seems to know everyone else even though they have just met."

I still carried the invitation in my pocket as well as a rather self-conscious letter from my wife, giving her "consent and approval" to my visit. Without this, I'd been warned, I'd never get past the gates.

Also in my pocket was a pamphlet put out by Fraternity Snoqualmie, the name of the co-operatively owned Seattle camp. It contained a number of presumably apt quotation ("Your clothes conceal much of your beauty, yet hide not the unbeautiful"), a dissertation of "Ideals and principles," calling for "a natural, hygenic, outdoor life in a state of complete nudity" and "the very highest in moral standards and ethics, above reproach by even the most discriminating critic."

A list of club rules included warnings about "public demonstrations of affection" and "the telling of smutty stories or profane and obscene language" and noted that dogs and alcoholic beverages are forbidden.

### With Company

It had been raining when we left Seattle, but now the sun broke through and I found myself getting gloomier in direct ratio to its heat. With a little rain I might have been initiated gradually.

But the sun was a happy sight to my three passengers—a 35-year-old post office sorting clerk who is secretary of one of the three British Columbia clubs, his tiny, vivacious wife and their 13-year-old daughter.

From the time we left Vancouver they chattered excitedly about the prospects of the camp, wondered if so-and-so would bring his bull fiddle for the concert, gossiped about the anticipated meeting of two elderly "sunbathers" who had carried on a romance by mail and were now due to confront each other—and from time to time reminded me that a man with his pants on in a nudist camp feels just as conspicuous as a nude at a Rotary luncheon.

The attitude of the three seemed to me exactly like any small, middle class family, who don't get out much, setting forth on a picnic. I found it hard to realize that I would soon behold them under much less typical circumstances.

In this case it had been the husband whose enthusiasm had converted the family to nudism and so I asked his wife how she had brought herself to what must be an enormously difficult decision. "Oh, my heavens," she cried, giggling with her daughter, "it was the worst 10 minutes of my life." Then they all looked at me, smiling broadly.

*(This is the first of a series of columns.)*

ODDS AND ENDS

By Harold L. Weir

# That Stylish Hottentot Look for Summer Months

There is a tradition in this country, and others, that along about mid-July every God-fearing young man and woman should have acquired the color of a slice of lightly done toast.

I deprecate this tradition just as I look with considerable unrest upon any custom that does not appear to be founded upon reason or good sense.

WEIR

And I freely admit that after searching diligently in the annals of our race I find absolutely nothing to justify this mid-summer craving to look like a Hottentot.

It is true that our remote ancestors, so I am informed, practiced the quaint habit of smearing themselves with something called woad which was a kind of a blue dye.

This woad, I understand, was applied to the face, arms and neck of our forebears in designs to suit the fancy of the individual.

Now I don't mind buying that.

I rather like the idea.

In fact, it has occurred to me frequently while gazing into these battered lineaments of a morning, preparatory to hacking off the matutinal whisker, that a few well-placed streaks of woad or almost anything would effect a notable improvement.

So I swallow the woad. But I gag on the modish sunburn.

### Sunburn Meter

Therefore I note with considerable satisfaction, not to say delight, that some genius down in Massachusetts has invented a sunburn meter to save bathers from painful burns.

This gimmick, it seems, has a dial which shows how many minutes of sunlight will give the desired shade of tan.

I hope the thing works.

For while a slight creaminess of complexion or even the faintest tinge of amber may give members of the so-called white race a measure of added fascination, I have nothing but abhorrence for those people who prance around looking like an underdone ham.

Just why it is considered modish at this time of year to look like a refugee from a roasting pan is something beyond my indubitably extensive comprehension.

And yet otherwise admirable young men and women will go to infinite pains—and pains is the mot juste—to acquire the appearance of some object that properly belongs in a delicatessen window.

### It's Not Honest

One of the reasons upon which I base my objection to this abominable practice is that it is not honest.

I frankly confess to a weakness for brunettes—and, of course, for blondes.

But to keep it clean, suppose we concentrate on the brunettes.

Well, suppose (and there is no law against supposing, you know) I should espouse a brunette.

I would tenderly love the soft ivory tints of her skin. The pale, pale sepia of her cheeks would smite me to the very heart. And I would rejoice exceedingly in the dusky beauty of her brow.

Well, suppose, as the fairy tale says, we were married and started to live happily ever after.

And then, as the weeks wore on and housewifely duties kept the little woman from frolling in the sun, the color would slowly fade and I should find myself wedded to a bleached-out Nordic with a cuticle like a rawhide traveling bag.

I want to tell you that this sort of thing gives romance an awful kick in the teeth.

### Beach Cut-Ups

But perhaps the chief reason I am prejudiced against this moronic passion for midsummer sunbaking is that I lived for most of my younger life by the shores of the sea.

And there is nothing quite so idyllic, let me say, as to stretch out under a good wholesome newspaper on the sand and let the rest of the world go by.

But what happens?

All around you is the stench of scorching flesh.

Smoke rises from the backs of your neighbors.

And then when these sun-worshippers can stand no more of the torture, they jump to their feet with loud yells and tear around, kicking sand in your hot dog and treading dents in your silver hip flask.

Leave us be the color God made us, I always say.

## Trivia

The latest techniques in the development of the Ace, the British Electronic "brain," were shown to the public recently at the National Physical Laboratory at Teddington. This high-speed computing machine is claimed to be 1,000 times faster than any other calculating machine yet constructed. It contains numbers up to thousands of millions represented as a sequence of powers of two. The digits are translated into electrical pulses about one-third of one-millionth of a second in length and about one-millionth of a second apart.

Fishing for whales throughout the world is to be more strictly regulated. This was the main subject discussed at the International Whaling Commission which met in London recently. The Commission was set up three years ago to co-ordinate scientific research on whales. Reports from many parts of the world have been received indicating that stocks of this mammal are becoming dangerously low. The Commission is therefore seeking to avert a possible threat of extinction through over-fishing.

**PIGGY-BACK PLANE** is latest French jet model riding atop standard plane over Paris' Toulouse field. Named "Composite Leduc," jet can take off at supersonic speed at high altitude.

# Paper Maker Sees Alarm At Export Market Loss

QUEBEC, July 9.—(CP)—Recent loss of export markets to the pulp industry in Canada is gradually pushing the industry to the position of the man who doesn't know where his next pay cheque is coming from, Elliott Menzies Little, president of the Anglo-Canadian Pulp and Paper Mills Ltd., said here yesterday.

That position, he said in an interview, "cannot help but have an adverse effect on Canadian economy and on our standard of living."

Mr. Little said the pulp industry is "definitely undergoing a recession," but there is no cause for panic.

DOLLAR CRISIS BLAMED

He blamed the present United States business decline and the dollar crisis in the United Kingdom and other countries as reasons for the loss of export markets. The pulp industry is "faced with a "period of major adjustment" and on top of that there is the dollar shortage.

The paper merchants find themselves suddenly with "high inventories of high-priced paper, so the sensible thing is to reduce their inventory and replace it with paper of a more competitive quality."

Mr. Little said former clients of Canada for pulp have found they have no dollars or can't spare any and turn to sterling countries where they can make bilateral agreements convenient to one another.

SLUMP CONTINUES

Business levels in the United States, he said, are at 75 to 80 per cent of last year in pulp and paper. "Business is still going down but how far no one knows."

"How far it actually goes depends to some extent on the United Kingdom because it is a big customer and if it stops buying it will be going just that much further down."

The president said other examples of the effect of the dollar shortage in the pulp industry are losses of the Argentine market for an unknown period and restrictions on the traditional markets of Australia and New Zealand.

NO CAUSE FOR PANIC

"While I don't believe there is cause for panic," he said, "neither should the Canadian people, industry and government underestimate the seriousness of what is going on now in our export markets."

Some people think the present situation in the United States may be corrected by the end of the present year or early in 1950, but the currency problem will take much longer to solve.

"The solution is not easy to find," Mr. Little said. "Free convertibility of currency and a return to multilateral trading would ease the situation."

## Gerrard Dennis Gives Solution To 11 Thefts

MONTREAL, July 9. — (CP) — Solution to 11 burglaries involving valuables worth about $150,000 is in the hands of Montreal police following an interview with Gerrard Dennis, Canadian-born gem thief now held by United States police.

His confession cleared up robberies which have gone unsolved since they were committed in the Montreal area four years ago.

"Dennis confessed to having participated in the thefts and he supplied us with valuable information that will probably lead us to recovery of part of the stolen goods and a few arrests," police reported.

## Toned Down

BLAKENEY, Norfolk, England—(CP)—Inhabitants of this fishing village, proud of their flint cottages, won their battle against a "monstrosity" of pink bricks which "grew up suddenly" in their midst. The new house now will be painted with cream wash and its asbestos roof replaced with tiles.

## STICKY CASE STUMPS COPS

VANCOUVER, July 9. — (CP)—Two bulky Vancouver constables today are attempting to solve the case of the missing pastry.

They were called to a delicatessan last night where they found the proprietor complaining loudly of theft. His complaint: An inebriate had stolen two large chocolate eclairs.

"Unable to find same," they reported gravely at headquarters.

## Big Red Sub Fleet Claimed

WASHINGTON, July 9.—(AP)—Secret testimony that Russia has a fleet of 250 to 300 ultra-modern submarines was disclosed by Congress yesterday.

As a result, top navy officials testified, the United States navy has given No. 1 priority to "anti-submarine warfare" preparedness.

Admiral Louis E. Denfeld, chief of naval operations, cited Russia's potent underseas striking power in guarded testimony before a senate appropriations committee some time ago. It was released today.

At the same hearings Defence Secretary Louis Johnson told the senators:

"We do not expect war, but . . . there can be no real guarantee of peace today or in the foreseeable future. We must, therefore, continue to maintain substantial military forces."

# Cheap Method Found To Produce Titanium

RENFREW, Ont., July 9.—(BUP)—Workers at the Dominion Magnesium Company near here have discovered an inexpensive process for producing the all purpose metal, titanium, found only in Canada, it was disclosed yesterday.

An American process had been used, but officials at the mines said that new system, although not perfected as yet, extracts the metal from the ore at less cost per pound than the present system.

So scarce there are only a few tons in the world, it is used as a base for alloys. It is half as heavy as steel, but has proven stronger than the strongest alloys of steel. Titanium also features a non-corrosive quality, which has made it of great military value, and the United States navy has experimented with it in jet-engines.

WORLD'S ONLY MINES

Experts in Ottawa say the world's only known titanium mines are located at Allard Lake, Que., where an estimated 150,000,000 to 200,000,000 tons of the ore lie beneath the ground.

The Kennecott Copper Company and the New Jersey Zinc Company have invested nearly $25,000,000 in the new process with the objective of treating 2,500 tons of ore a day.

## Indian Scientists

NEW DELHI.—(CP)—Two Indian scientists have been awarded post-doctorate fellowships of the National Research Council of Canada for research in physics at the Council's laboratories in Ottawa. They are Dr. Shyamadas Chatterjee and Dr. Devendra Sharma.

# Military Funds Slash Favored

## U.S. Senate Group Head Asks $1.8 Billion Cuts

By William F. McMenamin

WASHINGTON, July 9.—(UP)—Sen. Elmer Thomas, D., Okla., today came out for a $1,800,000,000 cut in military spending during the current fiscal year.

Thomas, chairman of the powerful Senate military appropriations subcommittee, told a reporter that, "if Congress will go along" he is confident he can almost double the $928,000,000 reduction endorsed by President Truman.

Thomas' subcommittee is considering the house-approved bill allotting nearly $16,000,000,000 for operations of the army, navy and air force in the year that began July 1.

UMT OUT

Mr. Truman's sentiments were made public yesterday by Sen. Millard Tydings, D., Md. Tydings said after a white-house visit the president feels the house bill can be trimmed by striking out the proposed $800,000,000 for universal military training, and by eliminating the $128,000,000 he asked originally for military pay boosts.

Thomas, who previously favored a $1,000,000,000 cut in military spending, told newsmen Tydings' announcement made him confident he could make an even larger cut in the budget without hampering the efficiency of the armed forces.

"We have items (in the budget) in addition to those mentioned by the senator from Maryland, (Tydings)", he said.

NO STOCKPILE RUSH

He said Congress could curtail military spending further by reducing the contract authorizations and by rescinding past appropriations for stockpiling strategic materials.

Thomas said there is "no occasion to rush" to build up these stockpiles. He is convinced, he said, that war is not imminent and that Russia is "softening up" in its attitude toward the United States.

In passing its military appropriation bill, the house took the proposed $800,000,000 for universal military training and turned it over to the air force to permit it to expand from 48 to 54 groups.

ECONOMY BANDWAGON

Thomas said he agreed with Mr. Truman that it would be better to hold air force strength at 48 groups, and eliminate the appropriation completely.

Mr. Truman's endorsement of a military spending cut provoked favorable comment from the rest of the senate's economy bloc. But Senate Republican leader Kenneth S. Wherry of Nebraska said the Truman reduction was tantamount to "no cut at all."

Woodward's Bedding Section, Third Floor

# Church Conference Held in U.K. City

OXFORD, England—Seventy-four Protestant churchmen from nine countries, including the United States, met here for a series of conferences on the program and aims of the World Council of Churches as set forth at the Council's First Assembly at Amsterdam last summer.

The conferences were sponsored by the World Council in collaboration with the Churches' Commission for International Affairs. The overall theme of the discussions was "Christian Action in Society."

Leading speakers included Dr. John C. Bennett, of Union Theological Seminary, N.Y., who discussed the Christian responsibilities of society. Dr. J. H. Oldham, of the British Council of Churches, who spoke on "The Meaning of Work," and Anglican Bishop Steven Mills, who dealt with problems of evangelism in modern society.

DRAFT MEMO

One of the conferences was devoted to a discussion of the Biblical basis of the Church's life and message. It was announced that a memorandum would be drafted to serve for further study of "the use of the Bible in different churches."

At this conference, Dr. Henry P. Van Dusen, president of Union Theological Seminary, and a prominent figure in the World Council of Churches, urged that workers in secular fields of activity should submit "revelant questions" to theologians studying the application of Biblical teachings to modern life.

The Rev. E. C. Urwin, British Methodist leader, stressed the sense of spiritual frustration he said was often found among conscientious workers. He complained that "too often industry is like a jungle," and declared "we have got to clear a way through the undergrowth."

Mr. Urwin was supported by Hans Ehrenberg, a German pastor who was imprisoned in a concentration camp during the war, and Rene Bogin, French Protestant workers' chaplain.

The latter challenged the assumption that the concentration of individuals in modern industrial ways hampers freedom. He said that the old, traditionally rural communities often limited freedom, whereas the modern industrial worker can exercise his right to make decisions.

CAN HELP

Dr. Paul Lahman, of Princeton University, declared that many Christian people themselves work in industry, and can help "overcome the limited horizon of their fellow Christians."

The conferences are scheduled to submit reports to the first full meeting of the World Council of Churches' Central Committee which will take place at Chichester from July 9 to 15. Countries represented were, besides the United States, Great Britain, France, Czechoslovakia, Germany, Holland, Sweden, Switzerland, and India.

THE COMBINED Sunday services of Erskine and Norwood United Churches will be conducted by the Rev. W. T. Young with the morning service at Erskine and in the evening at Norwood, which will be attended by the Orange Lodge Associations of Edmonton.

## Costly Business To Outfit New Moderator

BELFAST, Northern Ireland—Members of Rosemary Presbyterian church here discovered that it's a costly business to outfit a moderator of the General Assembly of their denomination.

The discovery was made when they presented their pastor, the Rev. Gordon D. Erskine, the new moderator, with the robes of his office. A congregation customarily makes such a gift.

When the bill came, they found that the robes cost $1,100, about five times the cost in pre-war years.

The outfit included breeches, cutaway coat with Elizabethan ruffs and court shoes with silver buckles.

## Presbyterians Defeat Ban

KITCHENER, Ont.—A move to have the Presbyterian Church in Canada call on its members to abstain from alcoholic beverages was blocked by the General Assembly here on a close vote.

The proposal was to have the Church oppose the whole liquor traffic in all its phases.

The Rev. Lloyd Henderson, mayor of Portage La Prairie, Manitoba, said: "I think there are churches in Canada today paying too much attention to the subject of alcohol. They are making laughing stocks of themselves."

## Religious Teaching Sought In School

REGINA—Religious education in all schools was asked almost unanimously by delegates to a Saskatchewan educational conference held here. The conference was attended by provincial department of education officials and by what was School Trustees' Association representatives and teachers.

Almost every speaker declared that the spiritual and moral values of Christian teaching should have a place in the school.

## Dr. Morgan Elected Wales Church Head

LONDON.—Dr. John Morgan, Bishop of Llandaff, has been elected Archbishop of the Church in Wales (Anglican) to succeed Most Rev. David L. Prosser, who is 80 years old.

Archbishop-elect Morgan will be solemnly enthroned at ceremonies in Llandaff Cathedral within the next three months.

## Missionaries Will Remain In China

NEW YORK — A total of 176 Methodist missionaries and, of them women—are still serving in China despite the fact that seven areas served by the Church are now in Communist hands, it was announced here. Of the two other missionaries, most of them mothers with young children, have been evacuated.

## U.K. Gambling Down

LONDON — Britons spent the equivalent of $2,000,000,000 gambling in 1948, as compared with $3,164,000,000 the year before, according to a report here by the Churches' Committee on gambling.

Anthem: "Fairest Lord Jesus" (Matthews)
Soloist: Helen Trimble

# Churches

REV. L. M. WATTS, rector of St. Faith's Anglican Church, will broadcast his Sunday morning service over CFRN at 11 o'clock.

## Clergyman Warns Of Need To Fight Communism

TORONTO. — Missionaries will have to abandon "goody-goody" programs and adopt different techniques if they hope to defeat Communism, especially in countries where Christianity is already being driven underground.

This advice was sounded here by Dr. Gordon A. Sisco, secretary of the General Council of the United Church of Canada at the annual meeting of the denomination's Board of Christian Education.

"Missionaries of tomorrow may be young men in overalls, conducting a whispering campaign in the factories and shops," Dr. Sisco declared.

He said "the present world situation will require entirely new methods by our mission boards" and in some places "Christians may have to meet in small groups, without the benefit of clergy."

"It may no longer be possible," Dr. Sisco added, "to send abroad missionaries in the ordinary sense."

## Scot Church Won't Disapprove Pact

GLASGOW—A proposal that the General Assembly of the United Free Church of Scotland refuse to go on record as welcoming the North Atlantic Pact as a possible deterrent to would-be aggressors was voted down here.

The Assembly approved another motion, however, reaffirming that war as a method for settling international disputes is contrary to the teaching of Christ. "The only hope for peace is reconciliation, the Assembly said.

## Dr. G. F. Fisher To Visit Australia

SYDNEY.—Dr. Geoffrey Francis Fisher, Archbishop of Canterbury, will visit Australia in November next year as the guest of Dr. Howard W. K. Mowll, Anglican Archbishop of Sydney, it was announced here.

Dr. Fisher's visit will mark the first time an Archbishop of Canterbury has been in Australia.

## Christian Science

"And by the hands of the apostles were many signs and wonders wrought among the people."—Acts 5:12. "The substance of all devotion is the reflection and manifestation of Divine Love, healing sickness and destroying sin."—Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 240.) The Sunday Lesson-Sermon on "Sacrament" in all Christian Science churches is composed of passages such as these.

## Conference End

BUCHAREST — Thirty-nine preachers from all parts of the country concluded a three-week study conference at the Baptist seminary here. Courses included church history, homiletics, theology, philosophy and modern church work.

The Pastor will Speak
12:15 p.m.—Sunday School.

## TODAY'S MESSAGE

### *Intolerance*

Intolerance is one of the gravest sins against Christian love and good will. It has been responsible for some of the greatest mass crimes in history, one of which—the systematic extermination of millions of Jews by Nazi conquerors during the last war—is still fresh in our memories.

One would imagine, in view of the manifest tragedies for which intolerance can be blamed, that few individuals professing a true religious adherence are ever guilty of this offense. That is not the case, unfortunately. A great many apparently "good" people commit acts of intolerance, apparently, without even being aware of their guilt.

Intolerance is not always wrong; indeed, it is often a necessary virtue. We are bound to be intolerant of error, because we are devoted to the truth; of disease, because we believe health is a boon all should possess; of crime, because it is a violation of justice and the enemy of good order.

But the intolerance which is never to be defended is that which is directed against individuals in contempt of the supreme law of love expounded by Christ. It is tragic that among so many of the so-called righteous there should be so much intolerance, especially toward the weak and erring.

Christ's attitude toward the woman caught in sin is an abiding reproach to all who choose to forget that intolerance toward sinners is an offense against the inherent dignity possessed by all men, without exception. We should never hesitate to condemn wrong, but neither should we hesitate to extend compassionate understanding and sympathy toward the sinner. Not to do so would, in fact, be to write judgment against ourselves; for we are all sinners to one degree or another.

"When a sinner experiences intolerant treatment, he tends to become confirmed in his addiction to sin. Thus intolerance breeds rather than discourages sin. On the other hand, a tolerant attitude—meaning a kind and helpful and prudently exhortatory one—may very well melt the core of wickedness in another's heart and win him back to God. More souls are saved by the example of love and charity than were ever won by the strictures and contempt of intolerance masquerading in the guise of Christian righteousness.

COME TO CHURCH THIS SUNDAY

ANNOUNCEMENT was made on Saturday by Rev. D. Buchanan, pastor of the Pentecostal Tabernacle, 108 street, that the daily Vacation Bible School will commence July 19 and will continue until July 29. All children are invited to attend these services in the Tabernacle.

## Y Building Returned

TOKYO.—Requisitioned by American occupation forces four years ago, the YMCA building here has been evacuated and returned to YM officials.

## At Tabernacle

"The Star of Hope in the Midnight of Despair" will be the Sunday evening theme of Pastor H. J. McVety in his fourth prophetic message in a series of seven based on the second and third chapters of the Book of Revelation. In this message at Beulah Tabernacle Pastor McVety will discuss the questions: "Is the true church destined to rule the world? If so, when and by what means will the thrones of earth come under the sway of the church of God?"

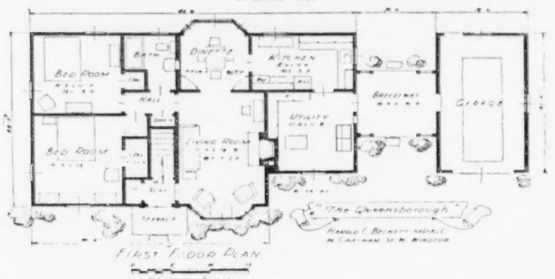
"Have I any PLEASURE at all that the wicked should die?" saith the Lord God and not that he should return from his ways and live.—Ezekial 18:23.
"My counsel shall stand and I WILL DO all my PLEASURE."
—Isaiah 46:10.



THE "QUEENSBOROUGH"—When the important day arrives that a young married couple decides to build they should do so with careful deliberation. If they be influenced by publicized notions which feature modernistic designs then they should realize that such houses have a very limited appeal. The owner seeking to build a new home should consider that he is creating an asset. If this design is attractive and the construction is sound then this asset is always in demand. If on the other hand he sponsors a flat-top, bizarre and homely house, he will inevitably find plenty of sales resistance when he comes to sell and finds his investment sadly depleted. There is a satisfaction of pride of ownership that goes with a house which for all times expresses sane architecture. The Queensborough here illustrated is suitable for a wide lot in areas where inadequate drainage makes a basement impractical. There is a 36-inch high crawl space under the entire house which is ventilated. This makes for a warm floor and allows space for pipes and ducts. The utility room provides facilities which help to compensate for lack of basement. In case an owner decided on a full basement, the utility room area could become an attractive library. The roof height is sufficient for a large attic to be finished later. The general plan is most attractive with a view front to back in living room. Total cubage without garage is 18,150. This is quite a small house with a much larger appearance. It is designed for efficiency and compact beauty by Harold C. Beckett, MRAIC, for readers of the Bulletin. For further information concerning the plans, get in touch with your newspaper.

# Canada Sales Cut In Sterling Area

## Chamber of Commerce Calls For Gov't Action on Markets

MONTREAL, July 9.—(CP)—The Canadian Chamber of Commerce said yesterday that sale of Canadian manufactured goods in the sterling area is "dropping at an alarming rate" and it called on the government for "continued effort by the government to clear the way for private trading in foreign markets."

The chamber, in a statement prepared by its foreign trade committee, said it does not suggest that the solution of all Canada's difficulties lies within Canada.

It "does believe that a greater measure of understanding and co-operation between government and business in the foreign trade field will result in more energetic and effective Canadian trading abroad."

It urged the necessity of "continued support for governmental and business endeavors to restore multilateral trade among nations."

The chamber said a chief obstacle to private trading is the prevalence of bilateral deals resulting from the inconvertibility of currencies.

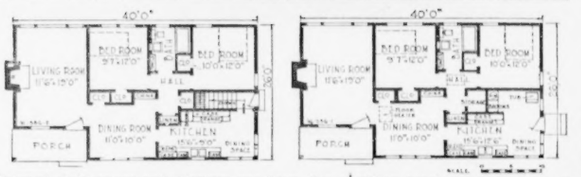
"Our exports have been shut out of markets which have been built up by years of work, and it is the feeling of the committee that unless a solution of this international exchange problem can be worked out, we must face the prospect of losing permanently a great part of our export trade, with all that this will entail in reduced production and unemployment.

ASKS PROMOTION

"The committee commends the government for its efforts to increase the sale of primary products in the sterling area. It is hoped, however, that more can be done to promote, in that area, the sale of Canadian manufactured goods, which is now dropping at an alarming rate.

"The committee believes that no effort should be spared by the government in eradicating the 'invisible tariffs' in the form of restrictive and arbitrary practices in customs administration which constitute a barrier to trade, particularly with the United States."

WHEATON ASHTON, Staffordshire, Eng.—(CP)—This little village has 6,000 population, 300 cows, 700 pigeons, a maypole and street lighting. It also has a fine musical reputation, but in living memory there has never been a good tenor in the local choir.



Colonial architecture and Western one-floor plan rambling spaciousness combine to bring you this charming home design. Floor plans provide a dining space in the kitchen as well as a full dining room. Corner windows in kitchen provide plenty of light and ventilation for the dining space. Horizontal siding is used throughout in exterior wall construction.

# 'Hangman's Noose Gang' Leader Changes Story

CHICAGO, July 9.—(AP)—The leader of the "hangmen's noose gang" changed his story again yesterday, police said, and told of hanging a three-year-old boy during an argument over a hammer.

State's attorney John S. Boyle, who previously doubted Robert Munday's original story that the killing of Tommy Laux was an accident, said "we will indict the boy for murder as soon as we clean up details."

Munday showed no apparent concern Thursday as he demonstrated to police the hanging of Thomas (Whitey) Laux.

Munday said previously the death of the little, white-haired Laux boy Wednesday night was accidental. He gave police two versions of the death in the basement of his home.

At Thursday's re-enactment of the hanging for police, Robert admitted he put the noose around Whitey's neck as he prepared to initiate him into the club. The rope was tied to a rafter.

Then, said Robert, he left the basement to get a hammer. Whitey with the rope around his neck was standing on a couch. The youngster was quoted by police as saying:

"I told him to wait a minute that I had to go upstairs for a hammer. I was gone maybe 15 minutes and when I came back I and I carried him downstairs and found that Whitey had slipped off the couch and was kicking.

"I unfastened him and began rubbing his neck, and then I took him upstairs and threw water on him. After a while, he didn't move so I put him in a gunny sack."

# Britain's Civil Aviation Hopes to Thrive in Jet Era

By H. L. Jones

LONDON, July 9. — (CP) — British civil aviation, a hungry and ailing problem child of nationalization, hopes to thrive in the coming era of jet flying.

The state-owned airlines learned expensive lessons in the rough-and-tumble of aviation competition immediately after the war. Their was a sorry story of delays and failures in design.

Officials acknowledge that many of Britain's post-war "interim" types of commercial aircraft, designed to fill the gap until the advent of jet flying, "did not come up to expectations." The United States, converting easily from wartime bomber production, took the lead and even British airlines eventually "bought American."

But Britain now claims to be ahead in jet development. She is already flying the world's first approved prop-jet airliner, the short-range, 30 passenger Vickers Viscount.

**9 EXPERIMENTAL PLANES**

At least nine new experimental jet planes already are being test flown.

The immense deficits of Britain's airlines have been the main criticism by opponents of nationalization. Government spokesmen reply, however, that privately-owned lines of other countries have to be heavily subsidized. Flying, they say, won't pay off until further advances are made, until fares come down and more people become air-minded.

Britain's airlines, completely nationalized in 1946, hold a three-way monopoly on civil flying. No other British company is allowed to compete with British overseas corporation on empire or atlantic routes, with BEA, on internal and continental services or with British South American airways in their sphere.

But aviation competition was stiff, there were initial organization difficulties and the nationalized lines became overstaffed. One post-war aircraft, the Tudor, was a £40,000,000 ($40,000,000) failure eventually withdrawn from passenger-carrying service.

**POLICY ABANDONED**

The "Fly British" policy had to be abandoned when BAOC bought 22 Canadian-built Canadairs. Latear American skymasters were Later American skymasters were ordered from the United States to keep Britain in the competitive race.

Costs have been soaring. In 1946-47, the first year of combined operation the three corporations had a joint deficit of more than £10,000,000. In 1947-48 it was more than £11,000,000.

But optimists know that despite it all airline mileage has grown steadily, financial interests have been obtained in aviation in other countries and more passenger business has been handled.

A retrenchment has begun, designed to bring about an operational saving. Biggest move was the recent decision to amalgamate BSAA into the BOAC organization as a South American branch.

# Building Exhibit Will Appear Here

## CMHC Unit Outlines Best Design and Construction

Combining educational value and attractive presentation, the new 1949 travelling exhibit sponsored by Central Mortgage and Housing Corporation will be on display here next week at the Edmonton Exhibition, which opens on July 18.

Emphasizing good house design and construction, the new unit is built around ten colorful scale model houses which illustrate graphically the construction features of some of the many standard designs accepted by the Corporation for National Housing Act financing.

Fashioned by a skilled craftsman, the replicas are landscaped and backed by distinctive plot plans. They are viewed from a ramp which ascends from the left and descends to an information counter on the right.

**FEATURES MAP**

Marking a significant forward step in Canadian display design, the exhibit features a map of Canada, made from fluorescent plastic and suspended on a screen in the foreground of the exhibit, which marks the location of Corporation offices throughout Canada. An Avislide projector, which screens a continuous 16 mm colored film, and a rich background of grey velour drapes, complete the unit.

Designed and engineered by T. Eaton Co. Limited, Toronto, for quick assembly, the exhibit is packed easily and transported in several compact packing cases, containing lengths of aluminum alloy tubing, models, ramp and counter sections and flat exhibit panels. Another case holds drapery, spotlights, extension wires and projector. At each exhibition, the cases are moved into a space of approximately 30x16 feet and in less than ten minutes the display is taking definite shape.

Printed material dealing with National Housing Act loans and design catalogues will be available on request at the exhibit and attendants will be on duty at all times to provide information to those interested in building and financing their own homes.

A complete set of working drawings for any house illustrated in model form and for any one of scores of other attractive designs is available from the offices of Central Mortgage and Housing Corporation at a nominal price and orders will be taken at the exhibit.

**TO SASKATOON**

Following its appearance at the Edmonto Exhibition, where it will be located in the Industrial Building, the display will be sent to Saskatoon and Regina. It has already appeared in Winnipeg and Calgary. On August 26, it opens at the Canadian National Exhibition, Toronto, winding up at the Western Fair, London, Ontario.

Other display units will appear at Canada's Great Eastern Exhibition, Sherbrooke, Que.; St. Lawrence Valley Exhibition, Three Rivers, Que.; Central Canada Exhibition, Ottawa; and Pacific National Exhibition, Vancouver.

# Make Garage Space Count

Don't overlook the possibility of making the garage an integral part of the house—not a cluttered catchall.

Convenient for both household and outdoor tasks, it can be organized easily into an efficient work centre and storage area. As such, it takes the "load" off other parts of the house.

The conversion from a catch-all to a practical workroom and storage area is one the average homemaker can handle.

**STORAGE SPACE**

The work bench can be fitted with drawers to hold small tools, uncompleted work projects and miscellaneous supplies. Two large bins at one end of the bench will hold fertilizers or transplanting soil. Small pots, necessary to the gardener, can be stored in drawers, or a hanging cabinet at the rear.

Large cabinets give adequate space for such tools as rakes and the lawn mower—as well as screens or storm sash.

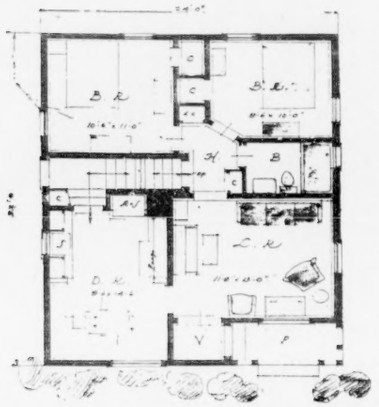
10921 106 Ave. Ph. 21895



THE "FERNVALE" period. Scarcity of materials and increased building costs make it necessary to hold house sizes near to minimum stipulated by Government regulations.

In the case of a minimum five-room bungalow, this is 24'-0"x28'-0" and contains about 15,000 cubic feet. "Fernvale" is slightly more than 10 per cent above the minimum. Compactness and simplicity of plan is added to an attractive exterior design to produce a house admirably suited to present conditions. The width of 24' utilizes 12 foot joist lengths without waste. The living room has good wall space and the entrance is protected by an attractive, latticed porch.

This design illustrates that good architecture and proportion should be a vital consideration. An owner has a feeling of pride in ownership of a tastefully designed house and the knowledge that his money has been expended judiciously.

The "Fernvale" is one of a large series of small and medium house designs prepared for publication by Harold C. Beckett, M.R.A.I.C., 52 Chatham St. W., Windsor, Ontario.

# U.K. Output Of A-Bombs To Aid Allies

By ELTON C. FAY

WASHINGTON, July 9.—(AP)—British production of atomic bombs, forecast by a top-ranking American authority, would give western democracies a double-barrelled weapon.

It would enable military planners of the United States and Britain to revamp an important segment of the strategy underlying the Atlantic pact. From then on, there would be two atomic arsenals from which to draw.

NOT FOR SOME TIME

Britain, however, may not be able to begin production of A-bombs for some time. Meanwhile, the United States alone must be the sole producer and user of the mass-destruction weapon.

Robert F. Bacher, former atomic energy commissioner and a physicist who worked on the first atom bomb, told the joint congressional committee on atomic energy this week that Britain is setting about production of fissionable material. Then he added:

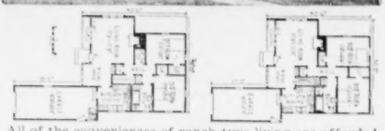
"I believe it is only a question of time until they do produce bombs."

Both British and Canadian atomic scientists collaborated with the United States in steps leading to manufacture of the first atomic bomb, Bacher said.

NO DIRECT LINK

But there has been no direct collaboration on atomic weapons since the United States set up strong security regulations in 1946 along with the atomic energy commission.

Thus it appears Britain can have no knowledge of the new type of American atomic bomb referred to Thursday by Brig.-Gen. James McCormack director of AEC's military application division—unless British scientists have parallelled the research efforts of the U.S. during the last year or two.



All of the conveniences of ranch type living are afforded in this pleasing "L" shaped Western Style Home. It is especially designed for construction where the lot is not as large as that ordinarily required for the average ranch type home. The width of this house is slightly over 39' overall which, in most localities would be suitable for a 50' lot. The generous and judicious use of glass provides plenty of sunlight and ventilation.

# Ruined City Being Sought In South African Wastes

JOHANNESBURG, South Africa, July 9. — (CP) — Remote regions of the Kalahari are to be surveyed by a Union government aerial expedition in the hope of discovering new ruins like those of Zimbabwe.

The region to be surveyed lies about 400 miles to the north of Upington, on the Orange River.

Since the incorporation of South West Africa in the Union, the government has taken an increased interest in the area, it was learned in Pretoria. If there are such ruins, they are bound to prove a valuable tourist attraction.

LITTLE INFORMATION

Members of the expedition have little more to guide them in their search than strong theories held in certain archaeological quarters, and persistent reports that have come down through the centuries.

Bushmen legend has it that a ruined city does exist, and that it is one of a chain of forts built between Zimbabwe and the coast by a past civilization. The forts, they say, were built to safeguard the transportation of gold and silver to the coast.

CLUE ON OLD MAP

Another strong clue is provided by an old Portuguese map, pilfered in Lisbon in 1740, which gave bearings of a city named Farumi, in the desert regions of South West Africa.

The exact whereabouts of this map is now uncertain, but it is said to have been in the possession of Eugene Marais, a pioneer South African naturalist, until his death about 15 years ago.

Evert Dormsse, a Pretoria member of the expedition, said that some African geologists believed that the source of much of South Africa's alluvial gold and diamonds might lie in the area of the "lost" city.

BARREN WASTE

Current official maps indicate the area of the supposed ruins is nothing more than a barren waste.

With Upington as a base the expedition will make several excursions over the area. Photographic records will be made with a telephoto camera.

The "lost city" of Farumi is reported to have been seen by a SAAF pilot in a flight over the territory during the war.

# Stowaways Get Reprieve

MONTREAL July 9. — (CP) — Two stowaways, whose bid for "liberty and freedom" in Canada was foiled when they were ordered deported to Europe, yesterday were granted a temporary reprieve while their case is reviewed.

Robert Radowicz, 22-year-old Austrian who claims to have helped 1,200 of his countrymen escape from behind the Iron Curtain, and his Polish friend, Paul Rakasiewicz, were ordered deported today after having been held in immigration cells since Wednesday. Their application for asylum as political refugees was rejected.

The reprieve came a few hours before they were to have been placed aboard the Swiss freighter Arosa Kulm and taken back to Antwerp where they stowed away several months ago.

They were taken back to immigration cells and will probably be kept there until they are either allowed entry to Canada or until the Arosa Kulm arrives back in Montreal.

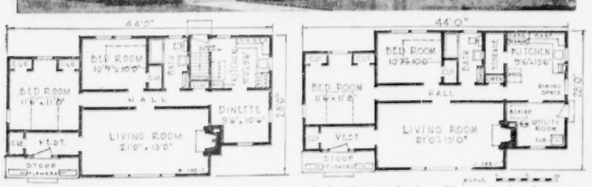
ARMY and NAVY DEPARTMENT STORES LIMITED



Convenience and utility are the keynotes of this home design. Every inch of space is utilized to the fullest advantage to produce an effect of spaciousness. The large picture window and the use of glass blocks at each side of the entrance add especial interest to the front exterior. The kitchen layout saves many steps and minutes. Plan 1 without basement provides dining space in the kitchen and Plan 2 with basement provides a full dinette.

# Women's Building Will House Many Exhibits

Women's building at the exhibition grounds will be the Mecca for women attending the 71st annual summer fair which opens on Monday, July 18.

In this building will be housed the culinary, needlecraft, leathercraft, pottery and painting classes.

Entries in all sections are well ahead of last year and the keenest type of competition is expected in all classes.

The Women's Building will be open from 1 p.m. to 11 p.m. daily.

1949 INNOVATION

Innovation this year is the pottery classes and remarkable specimens have been entered from all parts of the province and many outside points.

Fine arts exhibits are still streaming into the exhibition offices and total of exhibits and their quality are well above the average of former years.

Needlecraft entries have soared to new heights. The display of crochet work and embroidery has increased by 50 per cent.

A feature of this display is the magnificent European embroidery patterns submitted. This demonstrates the interest our new citizens are taking in the summer fair.

SPREADS, HOOKED RUGS

Many magnificent specimens of weaving, beautiful crocheted bed spreads and hooked rugs will be on display.

Also a feature of this show will be the work of women over 70 years who have entered hundreds of knitted articles, crocheted and patchwork quilts.

Leathercraft entries are doubled over last year and shell craft exhibit also has increased.

However it is in the culinary competitions that entries have really soared. Increases of 200 and 200 per cent have been registered in many of the classes.

Brisbane, Australia, was first settled as a penal colony in 1825.

# English Aged Get Holidays

LONDON, July 9.—(CP)— A vacation by the sea is brightening the lives of many old people this year—for some of them their first vacation in 70 or 80 years of life in towns and cities.

More than 200 have left their homes in southwest London for a week's holiday at Bognor Regis, Sussex, arranged by Cyril Black, former mayor of Wimbledon.

EXPENSES SLIGHT

Their expenses will be £3 ($12) and they will have real comfort and real—breakfast in bed every morning and a three-course dinner at night. Bognor council will let them use deckchairs and the pier free of charge, and they will not have to pay to use the bowling green or the miniature golf course.

Other treats for old-timers:

Paddington, West London, council has bought Kinecardine, a house in Bexhill, Sussex, one minute from the sea with rooms for 16 guests. One party of eight has already arrived by motor coach after a civic send-off at Paddington.

DELUXE HOTEL

A deluxe hotel with all modern conveniences, one minute from the sea, is planned for old people by Yarmouth (Norfolk) Welfare Services' Committee.

There will be room for more than 50 guests, paying only about £1 shillings a week. Only one rule will be made: Guests must be accompanied if they go out at night.

# Street Bosses Out Again

By STUART UNDERHILL

LONDON, July 9.—(CP)—Sidewalk supervisors are getting back on the job in London. Once more they can find construction jobs worth staring at.

Until recently there has been little new construction in the downtown area. Essential repairs were performed, but the building program was aimed almost entirely at providing new housing.

Now, although steel and timber are still in short supply, new offices are beginning to go up on sites that have supported nothing but bomb rubble for the last few years. Passersby loiter to watch excavators dig out new foundations, or girders swinging into place on the slowly-rising framework.

It is estimated that building worth £215,000,000 ($860,000,000) will be completed in London this year. It will require an army of 250,000 men.

One of the biggest office building projects is a £2,000,000 structure rising in Whitehall not far from the houses of parliament. It will accommodate government employes, whose vastly increased numbers have made the provision of offices a top problem.

Many are still occupying property requisitioned by the government during the war. By 1951, however, they should be in new buildings, 27 of which already are being erected by financial trusts for rehiring to the ministry of works.

Trade unions were legalized in England in 1825.

## Photo Show Looms As Best Ever

Photographs from outstanding artists, more than 250 of them, will be on display at the 4th International "Gateway to the North" exhibition at the 71st annual summer fair sponsored by the Edmonton Exhibition Association.

Entries in the display have been received from Africa, Australia, Belgium, Cuba, China, Czechoslovakia, England, Ireland, India, Italy, Norway, Scotland and the United States.

This show promises to be the finest held on the continent this year.

Entries from seven of the 10 leading photographers in the world have been received for exhibition at this show.

Among the outstanding artists who have submitted prints are: Jose Ortiz Exchague, Madrid, Spain, an outstanding European master; Eleanor Parke Custis, one of the leading painters and photographers in the United States, Frank R. Fraprie, Boston, Mass., who rated second in the show last year.

Other famous exhibitors are Axel Balmsen, Yellow Springs, Ohio, who placed fourth last year; R. Winquist, Sweden, and Francia Wu, F.R.P.S., who is exhibiting a splendid set of Oriental pictures.

The display will be located in the Arts building.

## Recount Called In East Riding

BRANTFORD, Ont., July 9.—(CP)—A recount will be made July 14 of ballots cast in Brant-Wentworth in the June 27 Federal election. The official returns gave John A. Charlton, Progressive-Conservative, an 18-vote lead over James A. Telfer, Liberal.

# Ex. Grounds Gets Extra Trackage

## Constructing 550 Feet More To Accommodate Show Train

Construction of 550 feet of trackage is underway at the exhibition grounds to accommodate the 70 double-length all-steel cars that transports the Royal American Shows, the Midway attraction at this year's summer fair.

The show arrives here Sunday, July 17, to fill its engagement at the 71st annual summer fair which will be staged during the week commencing July 18.

This year new innovations featuring musical productions and thrilling rides have been added to the show.

GYPSY ROSE IS STAR

Attractions include Gypsy Rose Lee, internationally famous artist of Hollywood and Broadway, who will appear in a production devised, staged and directed by Hollywood and Broadway master minds.

Cast of this show includes entertainers who have appeared in major musical productions of stage and screen.

Another headline attraction on the Midway is "Harlem in Havana Revue of 1949," an all-star negro revue of singers, dancers, comedians and a 12-piece orchestra.

DANCING COMEDIANS

Starring in this show are Patterson and Jackson, dancing comedians making their first appearance in outdoor shows.

Previously they were billed with such stars of radio and screen as Duke Ellington, Louie Armstrong, Cab Calloway, Henry Busse and many others.

For be-bop entertainment the show features Chubby Kemp, direct from the Club Zan-Za-Bar in New York.

Singing star of the show is George Gould, who has appeared in motion pictures and Broadway, and brought the song "Ol' Man River" back to popularity.

Shirley Bates, dancing star of the revue, is to be auditioned by a major motion picture studio at the conclusion of her engagement with this show.

COMPLETE CIRCUS

Another feature attraction is a complete circus starring Terrell Jacobs, internationally famous wild animal trainer, who appears in a single cage with 23 jungle bred lions and tigers.

The circus includes wire walkers, aerialists, clowns, trained dogs and ponies.

Other headliners include the world's largest side show of freaks and oddities ever assembled under one tent.

Scores of new rides for adults and kiddies are also on the entertainment bill.

## Fir Domestic Price Slashed 15 Per Cent

VANCOUVER, July 9.—(CP)—A 15 per cent reduction in the domestic price of Douglas fir plywood was announced today by H. R. Macmillan, president of the H. R. Macmillan Export Company, Limited.

The reduction was made to stimulate increased Canadian consumption of the product, to replace trade in export markets.

Mr. Macmillan said increased Canadian consumption is required to maintain employment in the mills.

# Rimless Glasses May Cause Cancer of Skin

CHICAGO, July 9.—(UP)—Rimless glasses may be a cause of skin cancer near the eyes, medical experts said today.

Rimless spectacles focus light on the face and may allow certain heat rays to penetrate more than usual, they said.

Twelve cases of skin conditions believed caused in this way were described by Doctors Henry B. Decker, Edward F. Corson, George M. Knox and Herbert A. Luscombe at the convention of the American Academy of Dermatology and Syphilology.

## SNAKE FEEDER

THE Teenie Weenie Dunce boosted his p[illegible] onto his head a[illegible] the Teenie [illegible] the creek. "I'll bring back plenty of fish for supper," he called to the Cook. "The fish are biting fine."

The Dunce hadn't been gone long before he dashed up to the shoe house. He was soaking wet and his eyes were as round as [illegible]

"Jiminy fishhooks! Gosh!" he gasped. "I certainly had a close call!"

[illegible]

"Oh, me!" answered the Dunce. "I-I-I was attacked by a [illegible]

Oh, you mean a dragonfly," corrected the General.

"No! I mean a snake terror," said the Dunce. "He nearly had me. He flew right at me an[illegible] had to dive into the creek to save myself. Gosh, but I was scared."

"Why, Dunce, that was a dragonfly and they are perfectly harmless," laughed the General.

"Is that so!" growled the Dunce. "Well, I bet you'd have dived out of the canoe if one had come at you."

"I tell you they are perfectly harmless," continued the General. "They are wonderful fliers and they live on gnats, flies and other insects which they catch in the air."

"Yeh, and they feed them to snakes," put in the Dunce.

"That's foolish gossip," said the General. "A lot of foolish things are said about dragonflies. Some people call them devil's darning needles and there is a story that they sew up the ears of bad boys. They are called snake feeders, flying adders and some believe they act as snake doctors, but it's all silly talk."

"That's right," put in the Old Soldier with a wooden leg. "Dragonflies have gotten a bad name from those foolish stories when they really help us a lot by destroying many mosquitoes and other biting insects."

"Is that so?" asked the Dunce. "Jiminy fishhooks! I have always been afraid of them."

"You've been afraid of those stories," said the General. "There's nothing to fear from a dragonfly. That fellow who scared you was only chasing an insect that happened to zoom past you. He wasn't attacking you."

"Well, shucks!" grinned the Dunce. "If they won't hurt you I believe I'd better go down to the creek and recover my canoe before it drifts away."

# DEPORTATION STAYED FOR YOUNG REFUGEE

MONTREAL, July 9—(CP)—A young Austrian passport clerk who threatened to kill himself if he was sent back to Europe, yesterday was granted a last-minute stay of a deportation order.

The reprieve came for Robert [illegible] his Polish friend, Paul Rakaslawder, shortly before they were to be put aboard the Swiss freighter Anunciada on which they reached Canada as stowaways last Wednesday.

Rudowicz, who claimed to have helped 1,200 of his countrymen escape from behind the Iron Curtain and his friend and aboard the Anunciada in Antwerp and were turned over to immigration authorities when the ship reached Montreal.

[illegible] pending for asylum in Canada, [illegible] With the Anunciada scheduled to sail last night they [illegible] Mr. MacNamara [illegible] Mr. Davis, secretary-treasurer P. C. Mc. Manus "and their associates" for the present situation and recommended they call off the strike.

# Triumphant Cubs to Toss 'Kids' at Puritys Today

## Hawkey Breezes to 10-1 Win Over Calgarians

Les Edwards, manager of Cubs will toss a pair of ex-Junior loop moundsmen, Vern Callihan and Al Purvis, at Calgary Puritys when the teams clash in a couple of Big Four Baseball league contests at Renfrew Park today.

At one time Callihan, who toiled with South Side Athletics in those days, held the Junior league strikeout mark at 17 for a nine inning game. He has been pitching well in the swifter Big Four, as has the flip Purvis.

... Two-base king

JUST A BREEZE

Actually Hawkey ... most of the route. ... Mike (Lefty) Johnson ... Purity hurler, seemingly ... truck with the strike zone. ... were off to a ...

### JUNIOR LOOP TO DISCUSS CONTROVERSY

Junior Baseball league managers and officials will meet tonight to discuss the controversy arising over umpire George Wilson forfeiting the EAC-South Side game of July 6 to South Side. Forfeiting incident occurred when acting EAC manager Norm Kimball refused to leave the field after Wilson had ordered him to do so.

Leo LeClerc, member of the EAC executive, announced last night that while his organization did not condone Kimball's action it would support him if he is in the right.

## Thoroughbreds A Glut on the Market

Things have come to a pretty pass with the Sport of Kings. Latest suggestion is that tracks stage at least one race [illegible] where the aim will be to finish [illegible], not first, [illegible].

[illegible] little. But not [illegible].

[illegible]

[illegible] As well there isn't stable space to go round.

**Obviously, then, heads—thoroughbred heads—must be lopped off. The proposed guillotine: a heat each day where the nag that waddles home after all the others is forevermore banished to the salt mines of Siberia.**

With horses this can mean the glue or [illegible] factory.

By way of consolation [illegible] will receive $100 of the purse money. As well the Horsemen's Protective Benevolent association will take the [illegible] off the [illegible].

[illegible]

## Claiming Price: $1.98

[illegible]

[illegible] Horses not in the money since [illegible] take off 11 3/16 pounds. Claiming price: $1.98.

What could be sweeter?

You drop your entry blank in the box and give off a big sigh of relief.

**Chance to unload Stumbling Tanya—he's by Crossed Feet out of Catherine was Great—has come at last.**

[illegible]

[illegible] run like a fat man. [illegible]

A word of warning to the jockey as he climbs into the saddle and the situation has been cased for fair.

It takes 20 minutes to get the race away. The riders are all trying to be last out of the gate. Finally the start can't be delayed any longer.

**And things go pretty much according to plan, too. Despite best (worst?) efforts of the other nags Stumbling Tanya finishes a dead last. "Nice ride," you tell the boy as he climbs down an hour later.**

FREE-SWINGING [illegible] of Vancouver is a [illegible] Alberta Golf Association [illegible]

# Eastern Track Monopoly Rapped

### Local Amateur Chiefs Let Off Steam At Games Trials Set-up

Two top Alberta officials of the Amateur Athletic Union of Canada last night charged the dominion's British Empire games trials are run by an eastern clique which isn't giving the west a fair deal.

Officials are [illegible] Cameron W. (Red) McN[illegible], [illegible] of the Alberta Branch of the AAU of C and A. B. [illegible]

[illegible]

"RED" McN[illegible] ... [illegible]

EASTERN MONOPOLY

[illegible]

[illegible] over the way the B E games trials are operated [illegible] the [illegible] point," he [illegible]. "My correspondence shows that the feeling is not confined [illegible] the west to Alberta [illegible].

[illegible] Canada's British Empire games team will be restricted to athletes competing at trials in Toronto July 15 and 16. This involved long and expensive trips [illegible]

STANDS BY PETTIE

[illegible] Pettie of Calgary, Olympic sprinter in 1948, said in Calgary [illegible] west had been 'sold out again' [illegible]

"I [illegible] a suggestion to the dominion committee last [illegible] that every province should hold its own trials and this was turned down," he continued. "It's only natural that an athlete can do better in his own back yard than in somebody else's."

"Even if the dominion committee had picked a central spot like Winnipeg to hold the trials, Alberta would have sent three times as many competitors as are going to Toronto," Mr. Lawrence said.

England now has about 240 [illegible] wells producing half [illegible]

# Baseball Must Fight

NEW YORK, July [illegible] — [illegible] ban by Fred Ma[illegible] and Max Lanier, St. Louis C[illegible] players, was denied yesterday [illegible]

The judge directed baseball commissioner A. B. Chandler and other defendants [illegible] president Ford Frick of the National league and Will Harridge of the American league, to [illegible]

[illegible]

[illegible] pension for jumping [illegible]

[illegible] south of the border [illegible] recently. Both Martin and Lanier have returned to the Cardinals, the team they left in 1946.

TRURO, N.S., July 7 — (CP) — Barbara Trites of Bridgewater Golf club yesterday [illegible] Nova Scotia [illegible] firing a [illegible]

# SIGHTLESS GOLFER FIRES NEAT 108

NORRISTOWN, Pa., July 9 — (AP) — Charlie (Chuck) Boswell, former Alabama football star who lost his eyesight in the Battle of the Bulge, fired a 52-56—108 over a tough Plymouth Country club course yesterday to take the lead in the 36-hole United States blind golf championship.

Boswell held an eight-stroke lead over a field of 18 contestants at the halfway mark.

Blind golfers play the same game as others, except there is no penalty for touching the ball while getting lined up for a shot, or for grounding the club in the sand traps.

Help from caddies consists of being placed in position to address the ball and rattling the pin to show the position of the cup.

# Error-Filled Inning Costs Canucks Game

Despite all the rumpus in the Junior [illegible] league this week the show is still going on. [illegible] Maple Leafs edged Canadiens 6-4 [illegible]

[illegible] scoring drive.

[illegible]

## S.S. Legion Bop Prudhams 17-0

[illegible] Football game.

Blakely and Shearer hit home [illegible] Legion allowed only five hits.

## 'WHITE HOPES' MOVE ON IN TORONTO

TORONTO, July 9.—(CP)—Jack Kreator, Allen and Frank Tunney, Toronto boxing promoters, yesterday announced a tournament to find a new Canadian "white hope" for the world's heavyweight boxing championship will be sponsored at Toronto in mid-September.

They added that Jack Dempsey, former world heavyweight champion, has agreed to come to Toronto before the tourney to assist competitors and act as an associate promoter for the show.

Tournament will be open to anyone in the dominion, Allen said.

# Locke Roars Back To Tie Bradshaw

### Both Fire Record-Tieing 283 In British Open Test

SANDWICH, England, July 9 — (CP) — Bobby Locke of South Africa pulled his faltering game together on the last two holes yesterday and gained a tie with ruddy-faced Harry Bradshaw of Ireland for the British Open golf championship with a record-tying 72 hole total of 283.

They'll meet today in a 36-hole playoff to settle the seventh tie in this ancient classic inaugurated in 1860.

Both finished off their game at the end of two rounds, both Locke and Bradshaw whipped around Royal St. Georges par-72 layout in 69-70 yesterday with each frittering away several opportunities to bag the title outright.

STRANAHAN 13TH

Their two sub-par rounds, however killed off challengers one by one, including amateur Frank Stranahan of Toledo, O., who finished 13th with 290 and Johnny Bulla of Phoenix, Ariz., who made his poorest showing in five tries by finishing even in a tied 41st with a total of 299. Stranahan, former British amateur champion and runner-up in the open two years ago, won the amateur medal for the second time in three years.

Bradshaw, 36-year-old pro at the Irish Republic's only country club, and five times Irish Open champion, [illegible] the fourth round of Locke with a 287 score, tied five strokes off the record set in 1935 by Gene Sarazen and tied by Henry Cotton in 1934.

After encountering costly trouble on four of the first seven holes of the back nine, Locke was informed by scoring boards on the 15th and 16th to win the first prize of 300 sterling ($1,200).

TOUGHEST SHOT

[illegible] 20 feet from the pit and pu[illegible]

[illegible] see if their scores would stand up. Roberto Devicenzo of Argentina came in with a 69 for third place at 285. Sam King and Charley Ward of Britain, only a shot back of Bradshaw and Locke as the final round started, played it in straight par 72 for 286. They were the last men to threaten.

Locke and Bradshaw played the four rounds almost identically, both faltering on the second day. Locke had 69-70-68-70 to Bradshaw's 68-77-68-70.

## DARK BEANED: CARRIED TO HOSPITAL

PHILADELPHIA, July 9—(AP)—Alvin Dark, Boston Braves' shortstop, was hit on the head by a ball thrown by Gran Hamner in the 13th inning of last night's Braves-Phillies game. He was carried off the field on a stretcher and taken to hospital.

A spokesman at Temple University hospital said Dark has regained consciousness and his condition is not believed serious.

Player will be detained in hospital, however, for 8 to 9 days, spokesman added.

## Fastball Schedule

Kingsway Park fastball schedule for games including Aug. 1 was released today by league officials.

Three exhibition games with a touring team will be played at the ballyard July 25-27.

Following is the complete [illegible]

[illegible]AF vs Roaring-Davis, Norwood vs Alcohol.
25—Union Side vs Burns; Walk-Rite vs Mortons.
27—Gregg vs Moose; Sparling-Davis vs Singer's.

Joe Kollis and Don Burlie, two [illegible] are billed [illegible]

Stan James meets Chub Shanks [illegible]

Feature event on the card pairings together Benny Gears, former western Canadian welterweight champion now living at Wildwood, and Enoch Hanson, Salt Lake City, Utah.

## LONGDEN PLEADS BUM RAP

LOS ANGELES, July 9—AP)—Jockey Johnny Longden returned from a fishing jaunt to Ensenada, Mex., yesterday in time to deny in court he had any part in an alleged race-fixing deal Feb. 15, 1947.

Longden was called as a prosecution witness against Lloyd Arthur Hargis, Mrs. Mary Lewis, 72, claimed Hargis [illegible]

[illegible] had bet on Stepfather, a horse ridden by Longden and which was disqualified, and that she had lost her investment.

## Cote Favored In B.E. Games Test

HAMILTON, July 9—(CP)—Gerard Cote of St. Hyacinthe, Que., and Cote of St. Hyacinthe, Que., Canada at last Olympic Games, is highly-favored to win tomorrow British Empire Games marathon test here over a rough, hilly route of 26 miles, 385 yards.

Most toughest competition among 16 runners will probably [illegible] who ran in the Olympic last year and finished fifth.

## Eckville Atop Central Loop

PONOKA, July 9—Eckville continues to lead the Central Alberta baseball league, according to "up-to-the-minute" statistics released last night by league secretary Jack [illegible]

Following are the standings:

TWO-PITCHER GAME

[illegible]

## GHEZZI BEATS PAR, TIES SLAMMIN' SAM

READING, Pa., July 9—(AP)—Big Vic Ghezzi, of Deal, N.J., shooting for a place on the Ryder Cup team as well as for top money in $15,000 Reading Open tournament, exploded a five-under-par 65 yesterday to tie Sammy Snead, for the lead.

Ghezzi's 65, following a 69 in the opening round, gave him a two-day total of 134. Snead attained the same figures with a 66 and 71, surviving a rather sour round yesterday to retain half the top spot.

One stroke behind them at the half-way mark of the 72-hole tournament was Cary Middlecoff, Memphis, Tenn., U.S. Open champion.

## Horses Took It Easy

HALIFAX.—(CP)—Railway officials found in some old records a description of a rather odd means of travel used frequently in the 1850's. Nova Scotian farmers wishing to visit Halifax apparently piled their horses and wagons on rail cars, unloading them in Halifax to travel about the city.

## Increases School

NEW DELHI.—(CP)—The Hyderabad state government has started a seven-year plan for the extension of primary education in rural areas. At present there are only two teachers to each [illegible] as there are [illegible] immediately at a cost of $270,000.

## Calgary Rink In 'Spiel Victory

[illegible], B.C., July 9.—(CP)—[illegible] curling [illegible] opened last night [illegible] Bonspiel of Curlers' Association. L. C. Peterson, Nanaimo, 2 in the premier event of the fifth annual midsummer bonspiel.

Meanwhile, T. M. Towriss of [illegible] defeated R. W. Wilson of Wartime, Sask., 21-7 to capture the Kootenay challenge second event.

# WOMEN of TODAY

*Dolores Kimball, Editor*

Photos by ERIC BLAND, Bulletin Staff Photographer

*WELL-KNOWN COMPOSER INSTRUCTS HERE*

Talent, charm and accomplishment mark Violet Archer of Montreal as an outstanding Canadian woman.

A composer of note, she has had works played in Montreal, Toronto, New York, Paris and London. She took her basic musical education at McGill University and completed her masters in musical composition this June at Yale.

She plays the piano beautifully but also plays percussion instruments. This she did when with the Montreal Women's Symphony Orchestra.

*MOTHER AND DAUGHTER COMBINE COURSES IN HOME ECONOMICS*

## *New Students' Union Building Corner-Stone To Be Laid In Official Ceremony; Tea Follows*

For years undergrads and Alumni of the University of Alberta have planned and hoped for a Students' Union building.

This year the dream has come true and Monday at 3:30 p.m. Premier Ernest C. Manning will lay the corner-stone in an official ceremony.

Among those present at the ceremony will be Hon. Lt. Gov. J. C. Bowen, Mrs. Bowen, Mrs. Manning, Dr. G. F. McNally, chancellor of the university, Mrs. McNally, Dr. Robert Newton, president of the university and Mrs. Newton, and representatives of the alumni and students' association.

Following the ceremony tea will be served in the lounge of Athabasca hall. The Students' Union will be hosts.

Presiding at the tea-urns will be Mrs. G. M. Dunlop, and Mrs. J. W. E. Markle.

Assisting in serving will be Patricia Scott, Mary Warren, Betty Jean Hamilton, Eleanor Sanford, Lois Badgley, Edna Drake, Marian MacKay and Mary Arnskov.

SHOPPING GUIDE

# Shopping More Fun With Fresh Goodies

By Bea Thrifty

I love to see fresh cranberries arriving and selling at a plump-full box for 25c . . . and raspberries selling at 25c per box . . . and the tasty green grapes at 33c per pound.

Of course I mustn't ignore the apricots which I bought at 25c per pound today. I heard of a shop selling them at 21c per pound but I was just too late for their supplies.

Happy little me is waiting for the B.C. and southern Alberta peaches to make an appearance.

**RECENT BRIDE** at the Community Tabernacle, Mrs. Ralph Charles Spratt is the former Eva Idel Riemer, daughter of Alexander L. Riemer of Vegreville. The bridegroom is the son of Norman Wilfred Spratt of Edmonton. The couple will live here.
—Photo by Housez Studio.

**EDMONTON** will be the home of Mr. and Mrs. Donald Frey, the former Laureen Eleanor Thomas, who were married recently at St. Peter's Lutheran Church. The bride is the youngest daughter of Mr. and Mrs. Philip Thomas of Edmonton and her husband is the youngest son of Mr. and Mrs. Edward Frey of Fort Saskatchewan.
—Photo by Goertz Studios.

**WEDDING BELLS** rang out recently for Mr. and Mrs. W. J. Doherty who were married at Stratheona Presbyterian Church. The bride is the former Irma Weidman, daughter of Mr. and Mrs. R. Weidman of Edmonton. Her husband is the son of A. G. Doherty and the late Mrs. Doherty of Calgary.
—Photo by Housez Studio.

**SACRED HEART** Church was the scene of the recent wedding of Julie Maria Vanoni to Peppino Ciochetti. The bride is the daughter of Mr. and Mrs. W. Vanoni of Edmonton and her husband is the son of Mrs. J. Ciochetti and the late Mr. Ciochetti of Naples, Alberta.
—Photo by Housez Studio.

## *Clerks Have Say-So On Women Shoppers*

### *Men Make Better Bargain Buyers Say Majority of Local Shopkeepers*

Every woman can't spend the best years of her life learning to recognize a bargain when she sees one . . .

But since all women spend a good many hours shopping it might be a good idea to make it a little more and even . . .

Shopkeepers here say a lot of women are not very keen on the bargain counter. Some look for cache one for value but many make . . .

Mothers often do a much better job of value shopping for their youngsters than they do for themselves. One local department store manager says he thinks because women don't spend as much time . . .

**BUY FOR OCCASION**

They buy something for an occasion or because it's fashionable . . . coming, but something that will . . .

occasion. It's a major mistake of women shoppers they say. Also it is where men far outshine the . . .

vited to a party then race to the nearest store to buy a suit to wear . . .

**MEN ALWAYS READY**

When a man's good suit begins to look worn, he buys a suit to have ready for special occasions, say retail salesmen. Or when he . . . a many as a dozen. He knows he'll need them eventually and he may have to pay more for them later . . .

Women far too often buy a bargain for a bargains sake . . . not because they need to supplant . . .

### *Air Force Officers In Edmonton For Special Investiture*

Among visitors here for the special investiture service at North West Air Command this afternoon are Sqn. Ldr. Morton and Mrs. Morton of Calgary and F/L. Thomas Fuller and Mrs. Fuller of Fort St. John.

Sqn. Ldr. Morton is interested with Distinguished Flying Crosses.

Sqdn. Ldr. and Mrs. M. . . . formerly from London, Eng. . . .

F/L. . . . and Mrs. Fuller are former Edmontonians and have been renewing friendships here for several days. . . .

## *Bride-Elect Betty Higgins Widely Feted*

. . . Miss Betty Higgins has been honored at several showers and parties recently. . . .

. . . Higgins was held this week by her grandmother, Mrs. L. J. Higgins, at her home in Jasper Place.

## *Helen Herd Is Wed at Home Of Parents*

. . . of the bride's parents, Mr. and Mrs. A. M. Herd. The bridegroom is the son of Mr. and Mrs. Fred Anhorn of Picardville.

Given in marriage by her father, the bride wore a white satin gown fashioned with lace yoke, bustle and slight train. She carried a cascade bouquet of red roses and glad florets. For her jewelry she wore a rhinestone necklace and . . .

. . . gown of . . . Mary Ann Camp, bridesmaid, wore yellow moire taffeta. Both attendants were headdresses to match their frocks and carried colonial bouquets of peonies, carnations and roses.

. . . Assisting in serving were Miss Violet Yeoman, Miss Georgina Cairns, Miss Patricia Thompson and Miss Bea Markell. J. Greenhough proposed the toast to the bride.

**RECENTLY MARRIED** at St. Josephat's Cathedral, Michael Letersky and his bride, the former Olie Showchuk. . . . Bonnie Brae in Edmonton. She is the daughter of Mr. and Mrs. P. Showchuk of Winnipeg and the bridegroom is the son of Mr. and Mrs. M. Letersky of W. . . .

## *Phyliss Lorraine Windt Weds Winston H. Elliott*

JASPER, July 9. The little White Church in the Rockies was decorated with peonies, sweet peas, carnations and roses for the wedding of Phyliss Lorraine Windt, daughter of Mr. and Mrs. . . . Harold Elliott.

Mr. Elliott is the son of Mr. and Mrs. A. H. . . . of M. . . .

## *W. J. Dick Is Guest of Honor At Reception Following Lecture*

. . . formal reception was held at the Garneau home of Mr. and Mrs. G. M. . . . on of W. J. Dick, following Mr. Dick's address at Convocation Hall last night.

Mr. . . . of the University of Alberta and president . . . was one of a . . . arrived from the summer session . . .

Among the guests at the reception were members of the summer session staff of the University of Alberta. Mr. Dunlop is director of the summer sessions.

**GOLDEN WEDDING** of Mr. and . . . Edmonton . . . since 1935, when Mr. James was . . . minister of the Alberta legislature.

**VISITING HERE** from Nanaimo . . . Jr. They are guests of the former's parents, Mr. and Mrs. William Power, Sr.

**WEDDING GUESTS** from out-of-town who attended the recent Hallett-Austen wedding here included Mrs. Ameri Lewis and Peter, Rose Ont.; Dr. and Mrs. . . . V. Hallett, Miss L. B. Hallett, Mrs. Ernest Hallett, Miss Hilma Mr. and Mrs. . . . ley, all of Cowley, Alta.; G. H. . . . of Lacombe, chairman of the . . .

**PLAYING** at Banff pro . . .

**WEDDING** . . .

**GUESTS** . . .

**EDMONTON** . . .

**SETTING** . . . GENERATION . . .

**EAST** . . .

**STRAWBERRY TEA** . . .

**GUESTS** from Edmonton regis . . . at Jasper Park Lodge in the . . . Mr. and Mrs. G. . . .

**HOLIDAY** at the Pacific C . . . be enjoyed by Mr. and Mrs. . . . P. Ogilvie and their son, Pat. They will visit in Vancouver and Victoria.

**BY PLANE** from St. Louis, Miss. . . . Joseph Iskiwitch to visit . . . and Mrs. Mac . . .

While here, Mrs. Iskiwitch is being entertained by friends and relatives of the family.

. . . Huddleman of Calgary is also visiting Mr. and Mrs. Goldberg.

## *Family Of 52 To Gather For Reunion Picnic*

. . . gather for a reunion picnic. They will . . . for their family fun and . . .

## *Parents Act On Horror Movies*

WINNIPEG—(CP)—Parents who . . . worry because Junior spends Saturday afternoon gawking . . .

## *Woman Has Twins 3 Years In Row*

. . . Mrs. . . . Bird, first Geoffrey and Sally, then Derek and Susan, now Clive and Linda.

Before the twins started coming . . . Bird . . . and Mrs. Bird . . . Gosh, all mighty! The oldest is 14, the youngest five.

## Calendar

## TRIPLE TOWERS OF PRAIRIE STRENGTH

THE PRAIRIE has its industrial skyscrapers. Landmarks of any farming community in Alberta. Great farmhouse silos large and small that help to feed the world. In some places they stand alone in the open with their backs to the wind. In others they are part of a group. Your first view of a community may be across the land. As everyone in Alberta knows, Wheat City, Land Town, is a valley or in the pit.

# On The Farm

# IN OUR Province

The province has put its bookkeeping in black ink now—to match the darkening shade of its name.

## Jasper Liberals Get Behind Yellowhead Route for Highway

### Will Seek Appropriation For Interim Road Repairs

JASPER, July 9—The Jasper Park Liberal Association has gone 'all out' in support of the Yellowhead route for the Trans-Canada highway. Decision to support the northern route was made at a meeting of the association's executive.

Executive member Ed Neighbor, who also is chairman of the road development committee for the Jasper chamber of commerce, put forward the resolution after returning from a trip to the Cariboo, B.C.

PRESS FOR FUNDS

Association also will press for appropriation of funds to bring the present 6-mile road to the British Columbia border up to park standards.

Although the road still is in the improved that stage Mr. Neighbor reported that a seasonal journey over the route strikes no dangerous hazards. Patch work and gravelling

## WHAT QUEER QUIRK MADE THIS OCCUR?

VANCOUVER, July 9 — (CP) — This is carrying a practical joke too far.

When Mrs. and Mrs. J. A. Watt returned to their home they found the door ajar, a sure sign that some unauthorized person had been in the

But the Watts found nothing amiss until they went to bed. Someone had removed the sheets and blankets and

The missing bed were found hidden in a closet

## Rain Brightens Crop Outlook

## Whitecourt Loses Prominent Citizen

WHITECOURT, July 9 — Mrs. resident of the for the last in the Maxwell her re-

moved to Logan Township, Ill., Mrs. Ouhe came to Canada in 1904, later homesteading with her family near House Mountain in the court district.

For the last few years before her death Mrs. Ouhe lived in town where she was active in community affairs.

## Wetaskiwin Final Vote Completed

WETASKIWIN, July 9— Official returns for the Western federal constituency made by W. H. Gerlach, K.C., returning officer, gave Hazen Argue, progres 3340 votes; Mossforth, Liberal, 6026; Stevens C.C.F., 3154 and Thomas, Social Credit, 6284.

There were 19561 ballots cast of her of voters in the constituency

## Fairview Wins 9-6

## Seed Plant Likely For Vermilion

VERMILION, July 9—Three agriculturists from the Vermilion district have returned home from a visit to Camrose where they inspected the municipal seed cleaning plant. They were accompanied by a similar establishment be built in

District agriculturist E. H. Buckmaster and Charles Stewart of the Agriculture Service Municipality and Henry of facilities at the Camrose plant.

and promoters of the establishment and is enthusiastic about the operation which enables district farmers on a co-op basis, to clean their seed

## Killam WMS Holds Baby Band

KILLAM, July 9—Annual 'baby band' of the United Church Women's Missionary Society was held in the church. Twenty-seven members of the 'band' were in attendance.

Three little girls, Marion Cotton, Velma Young and Hilline Cox, were graduated from the 'band' at the

Children's hymns were included

# Plastic Lung To Aid Polio Victims

## Weighs Only a Pound And Is Fitted Over the Chest

By Alton L. Blakeslee

NEW YORK, July 9.—(AP)—A plastic lung, weighing only a pound, or "iron" lung for polio victims has been developed, it was announced today.

Existing lungs are huge, it was explained, and keep patients breathing while they lie shut in them. Those who can ride in wheelchairs, or take exercises to strengthen muscles, may not wear it going to a hospital. Their arms are left free, so they can feed themselves, write, or perform other tasks except use the chest.

PLASTIC HOOD

The lung is a large plastic hood held in place by suction and two-inch straps fitting around the patient's back. A seven-foot hose connects the hood with a vacuum machine which sucks out the air, causing the chest to expand. Then the machine lets air rush back in, causing the chest to contract.

## PASC Adds 2 Producers

By Don Flach

Two more producing wells have been added to the string drilled by the team of Pacific, Atlantic, Sunray, and Calvan Oil Companies on the three-quarter-section spread obtained early in May for $353,000.

The completions boost the number of producing wells on the property to five.

One of the completions, No. 2-10B, was bottomed at 3,272 feet and began flowing at the rate of 672 barrels of crude daily. After treatment with 4,000 gallons of acid the production jumped substantially to 2,304 barrels daily and now is on a level with the two other producers in this section.

The other completion, PASC Redwater No. 9-3B, although not producing as well as the others, is a good well. With bottom at 3,284 feet, the well gave crude at the rate of 60 barrels daily. After treatment with 4,000 gallons of acid the potential was boosted to 744 barrels daily.

MELIN 1 COMPLETED

BA Leduc Leaseholds Melin No. 1 in the Leduc field has been completed with bottom at 5,196 feet in the D2. After treatment with acid daily potential of the well has been boosted to 250 barrels per day.

Globe Leduc West 1-A recovered 270 feet of clean oil and 30 feet of oil and gas-cut mud in a one-hour drillstem test of the interval from 5,100 to 5,152 feet. Leduc Calmar No. 1-A is drilling at 2,998 feet.

In the Redwater field, Gulf W. Shkolny No. 3 is drilling at 850 feet and Gulf John Bigoray No. 5 has set seven-inch casing to 3,193 feet. Wetern Minerals No. 1-17 is drilling at 3,050 feet.

WARNER 1 AT 3,235

Redwater Leaseholds Warner No. 1 is drilling at 3,235 feet. The well topped the Viking Sands at 3,199 feet. Sun-Coronation Province No. 1 is at 3,492 feet and Royalite Texaco Samson No. 1 is conditioning mud and drilling at 5,267 feet.

Imperial Lily No. 1 recovered 1,920 feet of salt water in a drillstem test of the interval from 3,098 to 3,127 feet for three-quarters of an hour. Another wildcat, Imperial Sprucefield No. 1, got 50 feet of dead mud in a test of the interval from 1,949 to 1,987 feet for 45 minutes.

At Pincher Creek, Gulf Fred Schrempp has deepened to 10,852. Turner Valley has drilled to 2,712 feet. Home Millarville No. 36 at feet.

## Big 'Bulls' Bulldozing

Federation of Community League's boys' camp had four men at work 'bull'-dozing last Sunday.

Work was done by four husky constables of the city police force. Bulls'—'bull'-dozers—get it?

They volunteered to help prepare the site for the underprivileged children's camp and were set to work hewing a road.

The policemen boast they cleared a hundred yard road good enough for automobile use, in close to two hours.

Work gang was composed of Constable D. R. McNaughton, acting probation officer and director of the camp; and Constables J. Lemoureaux, Les McDonald, and Tommy Church.

### Livestock

EDMONTON, July 9. — Total receipts for this week: Cattle 2,249, calves 658, hogs 2,145, sheep 355.

Offerings on the Edmonton cattle market the past week showed quite an increase in all divisions over the previous week. The cattle market opened none too active but salesmen were able to clear offerings at about steady values. Bulk of cattle receipts were plain grassers with many stockers and feeders included. Demand was always firm on all dry feds of good to choice quality, and by the end of the week had advanced .50 per cwt., especially on steers. All grassers were discounted from 1.50 to 2.50 per cwt. under grain fed quotations and plain ordinary grassers were slow sellers and were graded close.

Two carloads of choice heavy feedlot steers sold for export towards the week-end at 22.40 with a shrink, while one lot of 135 head of choice heavy steers, also feedlot offerings, sold for export at 22.50 with a shrink. Most sales of good to choice dry fed steers at week-end ranged from 21.00-22.00. Good to choice dry fed heifers sold at 17.00-19.00, and good grass heifers 16.00-17.00.

Good butcher cows were unchanged at 13.00-14.00, odd heiferettes 14.50. Bulls were easier at 13.00-16.50, depending on flesh and quality. Veal calves were steady, with good to choice handyweights earning 19.00-21.00, and odd fancy lightweights up to 22.00.

Stockers and feeders were plentiful and there was a limited outlet for the better kinds, while many of the lower grades went to the packers as boners. Good to choice feeders sold at 15.50-16.50, medium 14.50-15.50, good stockers 15.00-16.00, and medium stockers 14.00-15.00.

Hogs closed .50 per cwt. up for the week at 33.00 grade A for shipment, and 31.50 at local plants. Sows liveweight on yards were 18.00, and feeder hogs 22.00-27.00 depending on weight and quality.

Good spring lambs were steady at 22.00-24.00, and ewes mostly 4.00-8.00.

Following are the quotations:

| | |
|---|---|
| Choice fed calves | 21.00 to 22.00 |
| Choice steers | 21.50 to 22.00 |
| Good steers | 20.50 to 21.50 |
| Medium steers | 18.50 to 19.50 |
| Common steers | 16.00 to 18.00 |
| Choice heifers | 18.00 to 19.00 |
| Good heifers | 17.00 to 18.00 |
| Medium heifers | 16.00 to 17.00 |
| Common heifers | 14.00 to 15.50 |
| Good light cows | 13.50 to 14.00 |
| Good heavy cows | 13.00 to 13.50 |
| Medium cows | 12.00 to 13.00 |
| Common cows | 10.00 to 11.50 |
| Canners and cutters | 8.00 to 10.00 |
| Bulls | 13.00 to 16.50 |

### At Chicago

CHICAGO, July 9. — (AP) — Grains sold at slightly lower levels on the board of trade today. The market got off to a lower start and remained below the previous close in most cases, although a creeping advance toward the close reduced early losses.

Only display of strength came in soybeans, which continued to recover from their sharp shake-out of late Thursday. They did not get back all the ground lost that day, however. Traders said shipments of soybeans from the country has been very light.

Wheat closed ⅛ to 1 cent lower, corn was ¼ lower to ¼ higher, oats were ⅛-¾ lower, rye was 1 to 1⅝ higher, soybeans were 1¼ to 3 cents higher, and lard was 2 to 7 cents a hundred pounds higher.

## Two Japanese Make Attack On U.S. Sergeant

TOKYO, July 9.—(Reuters)—Two Japanese attacked an American sergeant as he tried to rescue three Japanese mine executives detained by trade unionists in a union office, United States divisional headquarters said today.

The sergeant fired a pistol into the air when the two Japanese tried to disarm him.

The incident, at Takahagi, in Ibaragi Prefecture, was the first attack on an American during the present unrest over government-ordered economy layoffs.

LIVESTOCK TRAFFIC

EDMONTON.—Total receipts of cars trucked, driven and shipped by rail to local livestock agencies on July 8: Cars 5, cattle 425, calves 81, hogs 354, sheep 88.

Shipments on July 7: To U.S.A., 1 car cattle; to Eastern Canada, 2 cars cattle; to Southern Canada, 1 car calves; to country points, 4 cars cattle.

## $20 PRIZE OFFERED —JUST FOR LANDING

Don't be shy, fellas!

Even if you don't think your control line plane has any chance of winning the Toronto-Detroit trip at Sunday's Edmonton Bulletin Junior Air Show, you can still win a special $20 prize.

It is being offered by Morgan Nicholson Ltd., 9859 Jasper avenue, specialists in aviation insurance, for the most perfect landing in control line events. This award is completely separate from all other prizes, and will be based on points, with the judges' decision final.

So drag that souped-up Mustang or Cub out to Namao Sunday. If it will get off the ground, you may cop the $20 just by getting it back down again.

## Oats, Barley Firm In Winnipeg Trade

WINNIPEG, July 9.—(CP)—Oats and barley futures prices showed a firm undertone in trading on Winnipeg Grain Exchange today, both grains attracting commercial buying in the shape of shippers' orders. There was processor support for barley. Offerings were light.

Rye firmed up from early weakness and attracted some commission house and local buying. There was some American selling in evidence in this commodity. Trading was on the dull side.

In export business reported, the United Kingdom was allocated 300,000 bushels of wheat under the Canadian agreement. Mexico was credited with taking 250,000 bushels.

The price of class two wheat was unchanged from yesterday.

QUOTATIONS (BASIS LAKEHEAD):

OSLO, July 9.—(Reuters)—The Norwegian government will immediately lift its export tax on timber and wood and paper products, it was learned today from reliable sources.

## Six Recounts Are Ordered

OTTAWA, July 9.—(CP)—Recounts have been ordered in six constituencies to settle definitely the outcome of the June 27 general election, the office of the chief electoral officer, said today.

The recounts have been asked for in Nova Scotia's Annapolis-King's riding, in the Ontario constituency of Brant-Wentworth, in Iles de la Madeline, Que., Dorchester, Que., Montreal-Papineau and Three Rivers, Que.

Three of the recounts—Annapolis-King's, Dorchester and Three Rivers—are scheduled for Monday. Montreal - Papineau is slated for Tuesday and Brant-Wentworth for Thursday. No date has been fixed for the Iles de la Madeleine recount.

## Jail Break Charges Laid

TORONTO, July 9.—(CP)—At least two men face charges in connection with the jail break attempt at Toronto's Don jail Thursday, Governor Allan Armstrong announced yesterday.

He said charges would be laid against Elmer Sevenson of Calgary, who is appealing a total sentence of 10 years for narcotics charges, and William McNiven, appealing a two-year sentence for breaking and entering.

Eighteen prisoners were involved in the attempted break from the jail shower room, in which guard William Wallace was slugged over the head and knocked unconscious with an iron bar taken from a radiator.

The disturbance was quelled within a few minutes by guards and city police using hoses and tear gas.

## Jap Officer Hanged

TOKYO, July 9. — (AP) — Isamu Sato, Japanese Navy lieutenant commander, was hanged today for beheading a United States Navy flier who was shot down in April, 1945, over the Ryukyu Islands south of Japan.

## Vancouver Cracks Down

VANCOUVER, July 9.—(CP)—An unprecedented crackdown on delinquent motorists was ordered yesterday by the Vancouver police commission.

Chief Constable Walter Mulligan announced that traffic officers will be freed as much as possible from investigation of minor mishaps to continue patrol duty for delinquent motorists.

Yesterday's order also makes it imperative that every uniformed officer do traffic work when necessary.

The move followed investigation of figures which showed Vancouver's "deathless days" record far behind those of Seattle and Portland.

"The traffic problem is increasing in seriousness," Mulligan said, "and measures must be taken to cut down accidents and violations."

## Stock Markets do Well In Face of Crisis Talk

By Forbes Rhude
Canadian Press Business Editor

Amid all the talk of world trade crisis, stock markets did very well this week.

Toronto, in fact, finished with somewhat of a splurge led by base metals, which were given a whirl on word of advances in United States prices for lead and copper.

The market situation roughly is this:

On the basis of what companies are earning, the market in general is underpriced. However, it has been pessimistic for three years and there is no sign yet that it is prepared for an extensive advance.

If and when traders decide that there will be no real depression in the United States, and if they should see things start on an upturn, then they would probably be in a mood to buy, and a broad advance could be expected.

CLIMB CONTINUES

It was the third successive week for stock markets to show improvements. The Toronto Stock Exchange's index, made up from representative issues, showed all sections ahead on the week as follows: Industrials 4.62 at 168.81; golds 2.22 at 98.70; base metals 6.34 at 90.78; western oils 2.08 at 43.30. At this stage, metals are back to their April figures.

Golds had an early-week flurry when the rumor got around that the British Pound might be devalued—a rather unlikely thought at the moment in view of Sir Stafford Cripps' repeated declarations that it wouldn't be devalued. However, golds respond easily to devaluation rumors.

PAPERS BEST HIKERS

Papers made the best advance in the Montreal averages which showed as follows on the week:

Banks down .10 at 27.36; utilities unchanged at 71.7; industrials up 3.5 at 116.9; combined up 2.4 at 101.9; papers up 14.62 at 277.30; Golds up 1.08 at 64.38.

New York was closed Monday for Independence Day and so had only four days of trading. It closed out the week yesterday on a safety note with prices barely moving. The Associated Press average of 60 stocks dipped .1 to 61 on the day, but advanced .7 on the week.

## Hotel Lack Hits Meet

Edmonton will be the location of an American Federation of Musicians convention as soon as it gets a civic auditorium.

So says Herbert G. Turner, prominent in city music activities for years, who attended the annual AF of M convention in San Francisco earlier this month.

This year's musicians' convention had been slated for Banff, but had to be changed because no one place in Banff could hold the 932 delegates to the huge gathering.

But, says Mr. Turner, "we could get the convention anytime" if Edmonton just had the auditorium to hold 900 people and the hotel space in which to house them.

## Search Resumed For Lost Fliers

BALBOA, CANAL ZONE, July 9.—(UP)—Rescue planes and ships resumed their search at dawn today for eight crew members missing in the crash of an American PBM plane at sea about 150 miles north of Cristobal.

One body was recovered at the scene shortly after the crash yesterday. The plane carried a pilot, co-pilot and seven enlisted men. Their names were withheld.

Carving is one of the oldest means of decoration and artistic thought expressions.

**Northwestern Utilities, Limited**

NOTICE IS HEREBY GIVEN that the Board of Directors of this Company has declared the Twelfth Quarterly Dividend of $1.00 per share payable on August 1st, 1949, upon the outstanding 4% Cumulative Preference Shares of the Company, such dividend to be paid to the Shareholders of record at the close of business on July 15th, 1949. Cheques will be mailed.

DATED at Edmonton, Alberta, the 5th day of July, 1949.

# Chinese-Filipino Pact Is Sought

## Chiang Seeks United Front Against Communist Forces

MANILA, Philippines, July 9.—(UP)—Generalissimo Chiang Kai-Shek was reported today on his way to the Philippines to discuss a united Pacific front against Communism with President Elpidio Quirino.

Informed sources said Chiang would arrive at the Northern Luzon mountain resort town of Baguio, 133 miles north of Manila, by plane from his headquarters on Formosa Sunday morning. A representative of Gen. Douglas MacArthur's Tokyo headquarters also was reported en route to Baguio.

QUIRINO ON WAY

Quirino left by train this morning for Baguio with foreign under-secretary Felino Neri, armed forces chief Maj. Gen. Mariano Castaneda and constabulary chief Brig. Gen. Alberto Ramos.

A spokesman at Malacanan Palace, the president's residence, confirmed that Quirino recently had invited Chiang to visit the Philippines, but he said he could not confirm Chiang's imminent or actual arrival at Baguio.

Official sources said Quirino was going to Baguio for a brief rest. But he told friends just before his departure that he was leaving on a "very important mission." Another highly-placed source said it was "90 per cent certain" that reports of a Quirino-Chiang meeting were correct.

NEWSMEN ALERTED

Furthermore, newsmen were alerted by the government to prepare to fly to Baguio "for an important event."

If they do meet, Quirino and Chiang are expected to discuss means of stopping the spread of Communism in the Far East and Pacific area. The Evening Chronicle said they would seek a united military and economic front against Communism.

Some sources said the two Pacific leaders might discuss the possibility of Chiang taking refuge in the Philippines.

Chen Chi-Ping, Chinese minister to Manila, returned here recently from Canton and talked lengthily with Quirino, presumably in preparation for Chiang's projected visit.

# 'MEN ONLY' RULE OUT

SHERIDAN, Wyo., July 9.—(UP)—A slim, brown-haired grandmother is the nation's only woman livestock inspector. She is Mrs. Elsa Smith, who was awarded a certificate designating her a livestock inspector at the 77th annual convention of the Wyoming Stock Growers Association.

# Pilot Praises Berlin Airlift

OTTAWA, July 9.—(CP) — A Canadian who contributed 120,000 miles of flying, everything from bootlaces to bulldozers into blockaded Berlin is home on leave, convinced that the air lift had its positive advantages.

Flt. Lt. Lorne Tapp, DFC, 29, said yesterday in an interview that in 345 missions on the air lift he found not only an Anglo-American friendship which exceeded anything in the air war but that the endless operating opportunities for trained personnel provided unique training in transport flying.

He was on the job a year and was the first pilot to make 300 trips.

Russian interference with planes in the air-lift corridors constituted more of a nuisance than a threat, he said. The Russians also were "annoying" at times with their searchlights.

# Jap Premier Wants Control of the Police

TOKYO, July 9.—(UP)—Premier Shigeru Yoshida today demanded control of Japan's police to cope with increasing violence and other unrest.

"It is impossible for the government to assume responsibility for the maintenance of peace and order in Japan unless the administration gets stronger control of the police system," a formal cabinet statement said.

Under the governmental system inspired by Gen. Douglas MacArthur, neither the prime minister nor the cabinet has any direct control over the national police. It is vested in a separate independent agency known as the department of public safety.

Yoshida tried and failed yesterday to replace the chief of the police system with one of his own choosing.

UNREST INCREASES

Unrest has increased sharply since the government announced plans for firing 85,000 federal workers to comply with a MacArthur economy order. The order was believed to have played a part in the murder or suicide of Sadanori Shimoyama, president of the state-owned railways.

In atom-bombed Hiroshima, 2,000 workers locked out of the Japan steel manufacturing company plant rammed the gates in an attempt to enter the premises. Police drove them away with only minor casualties.

Some 300 extra police were rushed to Fukushima to put down disturbances at a rally protesting the discharge of 140 employes of the Mitsubishi steel company. Thirty persons were arrested. Police said Communists organized the rally.

# HYDE PARK ORATOR, 12, IS EVANGELIST

LONDON, July 9. — (CP) — Almost every night of the week, Sundays included, 12-year-old Kenyon Jervis mounts a rostrum at London's famous "Orators' Corner" in Hyde Park and preaches to a large crowd.

His banner is a large sign "The Society for Evangelizing London," but Ken always looks as if he had just finished a rough and tumble with the lads.

"I like most games and play them, but I love doing this most of all," the slim fair-haired schoolboy said. "I was in the park some months ago listening to grown-up evangelists. I asked them if I might try my hand. They let me and now I spend most evenings preaching.

"At first I did not tell my parents about it as I was afraid they might stop me. Now they are really pleased. The news got round at my schools. Many boys started making fun of me. But they soon got tired of that."

Hundreds of people listen to Ken's sermons most evenings. His talks are simple and to the point and generally take the line that Christianity admits of no half measures.

Ken also leads the hymn singing in a small treble voice.

# Elderly Man Is Committed

VICTORIA, B.C., July 9.—(CP)—Francis Edward Smith, 75, charged with the strangulation murder of his wife Sarah, also 75, in their Oak Bay home June 19, was committed for trial by Magistrate H. C. Hall yesterday.

Deputy chief of police L. G. Claverdis produced a voluntary statement given by accused that he had quarrelled with his wife and grabbed her by the throat. She collapsed when he let go. He did not know she was dead.

Smith later attempted to commit suicide by slashing his wrists and throat with a razor blade. The accused suffered two paralytic strokes recently, he told Claverdis.

# STOP KNIFING PIGS, URGES BRITISH MP

LONDON, July 9 — (Reuters) — Pigs in Scotland will no longer have their throats cut if a private member's bill, passed by the House of Commons, is also approved by the House of Lords and eventually by the government.

"The pig is most courageous and I am sure he would not squeal while having his throat cut without good reason," Simon Ramsay, Conservative member and sponsor of the bill, told the Commons.

His end should be humane, he added.

The bill extends to the pig the about humane killing in slaughter houses which applies to other animals in Scotland.

This is the first private member's bill to be passed by the Commons for 10 years. The right for a private member to introduce legislation was suspended just before the war because of the urgency of government business. It was restored earlier this year.

GERALDINE MASON
. . . Scores success.

# City Pianist Tops Locally

One of Edmonton's top young pianists is Geraldine Mason, daughter of Mr. and Mrs. Leslie Mason, 11417 97 street.

Obtaining her LRSM concert performer's degree with very high marks recently, she has been recommended for a three-year scholarship to study at either of the Royal Schools of Music in London, England.

Pupil of Madame Jenny Le-Saunier, Miss Mason holds the associate teacher's degrees from the Royal Toronto Conservatory and the Western Board of Music, both obtained last year with first class honors.

TWICE WON TROPHY

She has won the Mason and Risch trophy for the open piano class in the Edmonton district musical festival two years in succession, as well as winning several other open classes in piano.

The brilliant young pianist is continuing her musical studies this summer with Jacques Jolas at the Banff School of Fine Arts.

Miss Mason plans to pursue her ambition of becoming a concert pianist.

# British Accuse Russ Breaking Agreement

BERLIN, July 9.—(UP)—British authorities today accused the Russians of breaking their blockade-lifting agreement by halting Berlin-bound loaded trucks on the Berlin-Hamburg highway.

Russian officers began stopping the trucks at the Herrenburg border crossing point near Luebeck late yesterday. They said they were acting on orders from higher authorities.

The Russians offered no immediate explanation for their move. They did not interfere with passenger traffic and also permitted empty trucks to pass.

OTHER INCIDENTS

There have been several other such incidents of the Soviets halting a segment of Berlin-west German traffic since the blockade-lifting agreement was reached. Each has been settled with the Russians apologizing and contending "it was all a mistake."

The three western Allied commanders in Berlin yesterday rejected the $665,000,000 western Berlin budget submitted by Socialist Mayor Ernst Reuter's administration and told him to substitute a balanced budget by Aug. 1.

A British spokesman said the submitted budget carried a deficit of $33,250,000. Past deficits have been offset by monthly grants of $19,950,000 from the occupation powers, but they announced that these gradually will be withdrawn.

MEET TUESDAY

The three commanders, along with their Soviet colleague, agreed to meet next Tuesday to implement the Paris "live-and-let-live" agreement on Berlin. The council of foreign ministers at its Paris meeting called on the four commanders to try and ease the difficulties resulting from the division of Berlin.

## Cause Trouble

MATLOCK, Australia.—(CP)—Australia has no wolves but starving wild dogs have been howling outside the hotel here. A timber cutter, carrying meat, was chased by a pack of dogs for two miles. Other dogs have broken into houses in search of food.

# Ontario Gold Bootlegged

TIMMINS, Ont., July 9.—(CP)—Bootleg gold, stolen from mines in the Porcupine area, was reported yesterday to be commanding the highest prices in the history of high-grading.

Buttons of the crudely-refined ore were said to be bringing prices as high as $29 an ounce from illegal dealers against a one-time price of between $20 and $22 an ounce. The official, fixed price of gold purchased by the United States Treasury is $35 an ounce.

Much of the bootleg product from here, it was said, is being sold in Europe and the Middle East. The rise in prices is attributed to unsettled currencies in those areas.

Mining authorities estimate that at least $1,000,000 in gold is stolen each year from the mines. The high-graders, they say, now use aircraft to get the product out of the area.

## HE WILL KEEP MOUTH SHUT

VENICE, July 9. — (AP) — From now on fisherman Giovanni Casonato, 17, will keep his mouth shut while he is working.

Dispatches from nearby Mestre, Italy, said today he is recovering from an operation. While he was emptying his net the other day, a small fish leaped into his mouth and got stuck in his throat.

# Island Named For Baby Prince

OTTAWA, July 9.—(CP)—Bonnie Prince Charlie, Princess Elizabeth's baby, has given his name to a remote Canadian Arctic island.

The island, lying in the lee of Baffin Island, some 850 miles northeast of Churchill, Man., has been officially named Prince Charles Island by the Geographic Board, final arbiter of Canadian place names. The latitude is 67 degrees north and the longitude 76 degrees west.

The island, some 70 miles long, is the largest of the three discovered in Foxe Basin by the RCAF since the war.

OFFICIAL ENTRY FORM FOR ALL EVENTS

**Edmonton Bulletin Junior Air Show**

second annual Alberta model aircraft contest.
Sunday, July 10, 1949, starting at 9 a.m.
(weather permitting)
Namao airport

Name ..... Age .....
Address ..... City or town .....

**HURRICANE HUNTERS** are these three Navy planes, winging their way over Miami Beach, Fla., on their way out to sea. They're hunting hurricanes. During hurricane season, they fly far out to track down any storms approaching coast and give weather bureau ample warning.

# Airborne Army Brigade Group Being Planned

VANCOUVER, July 9.—(CP)—Lieut.-Gen. Charles Foulkes, chief of the Canadian army general staff, said in Vancouver yesterday a permanent force army brigade group which will be completely airborne is being formulated.

General Foulkes said when the present training program is finished, all Canadian infantry combat troops will be able to go into action by parachute. One gunnery regiment is forming a special light battery to work with the airborne brigade.

Of Canada's three infantry regiments, the Princess Patricia's Canadian Light Infantry has completed its course, the Royal Canadian Regiment is under training at Rivers, Man., and the Royal 22nd Regiment will begin the rigorous course next year.

The chief of staff said he was satisfied with the rate of growth of Canadian reserve army but was "not so pleased" with the recruiting for the permanent army. The permanent force, at 26,000, was 6,500 short of its 26,500 objective.

The reserve army's strength is 37,000, he said, with a "paper strength" of 90,000.

## Possible Baby Quake Rumbles Ontario Town

EXETER, Ont., July 9.—(CP)—A possible pocket-sized earthquake rumbled through the centre of this western Ontario town yesterday, but left no clear indication of its origin.

Residents reported that buildings swayed shortly after noon to the accompaniment of loud subterranean rumblings but the fact neighboring communities experienced no such disturbances left doubt that a quake actually had occurred.

No damage was reported.

The freak tremor—if it was a tremor—apparently was confined to the centre of town.

Edmonton Bulletin Ottawa Bureau

OTTAWA, July 9.—Putting politics and the election behind him, Prime Minister St. Laurent this week hied himself off on a two-weeks' vacation with his family.

At his first press conference after the election, the Prime Minister was gay, jovial, obviously happy at the way things had turned out.

At the door of his East Block office, he had a handshake for each and everyone of the 20 or so newspapermen who dropped in for the occasion.

In the security of his triumphant return to office, the Prime Minister cracked jokes and exchanged quips with reporters.

"Looks like we'll be running things for quite a while yet," he laughed on one occasion.

Meanwhile, with the Prime Minister away, repairs and refurbishments were going on in the ancient, draughty and dingy East Block.

### DAB ON PAINT

The repairs so far consisted of laying a coat of pale-blue pastel-shade paint on the old-brown-sauce of the drab walls.

The Prime Minister's office on the second floor, with the cardboard sign tacked sheepishly on the wall, had been brightened with paint.

Mr. St. Laurent still has on his desk his autograph portrait of Harry Truman and on his wall, the near-definite picture of Mackenzie King.

The Prime Minister would return from his holidays, rested for the job of shuffling his Cabinet posts to take care of the fretting political aspirations of his top-level party helpers.

Some of the Cabinet members, including—reputedly—Post Master General Bertrand, Solicitor General Jean, Fisheries Minister Mayhew and Mines Minister Gibson would be shifted in the shuffle.

### GO TO SENATE, BENCH

Some would go to the Senate, some would get judgeships.

The election, and especially the big wave of Quebec support, brought to the fore the demands of younger French Canadian members for increased representation in the Cabinet and in top Civil Service jobs.

As one way to open up the pork barrel, the Government was reported to be considering expanding the Cabinet to take in at least the new post of Minister of the Public Service.

There was a good chance he might be French-speaking, to look after the appointment of French Canadians.

★ ★ ★

Seat of government, home of top government employes and part-time home of the people's representatives, Ottawa sagged to a new low in cultural appreciation this week.

For the past six months, the Capital had made the cultural concession of turning out in token numbers for the offerings of a full-time repertory theatre.

The theatre group—the only professional group this Capital of almost 200,000 people has supported in many years—was offering good plays, the best.

But Ottawa was only half-hearted and this week, the ambitious effort to bring culture to Canada's capital was collapsing.

The theatre group announced unless Ottawa shook itself out of its lethargy and turned out in numbers larger than 100 or 200, the Capital's professional theatre was preparing to fold.

★ ★ ★

The Civil Service threw out a few more coils of red tape this week.

The newest trap for the unwary civil servant was a special sickness leave form, for use when a member of a civil servant's family was ill and the government employe had to take time off.

If a civil servant's wife got sick and the civil servant had to take a few days off to look after the kids, he was required to explain:

1. How many persons were in his household.
2. If they were employed.
3. If they were employed in the government service.
4. The number attending school.
5. Whether the civil servant could have made advance arrangements by saving up his holidays.
6. Whether the invalid was in hospital.
7. If the invalid was in hospital, why the civil servant had to have time off in the first place.

The form does everything but take the sick person's pulse. They are working on that now.

★ ★ ★

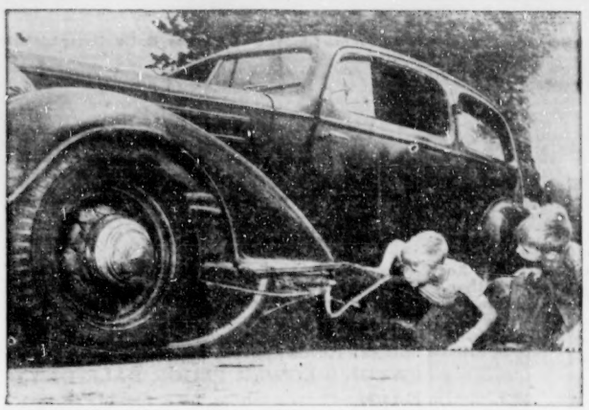
Frank Sinatra made a one-night stop in Ottawa this week and this staid, dignified Capital went wild over the "Swooner."

Men, women and children who remained cool to the sight of Prime Minister St. Laurent or George Drew walking down the street, went nuts over Frankie.

The same crowds who only cheered politely for Harry Truman, who only clapped with quiet dignity for Gen. de Gaulle, who saw the Governor General every day and didn't care, were out in a wave at the airport to greet "The Voice" that takes the stitches out of the bobby-soxers' sox.

Sinatra bore up well under the onslaught. He didn't try to kiss any babies or garner any members for his fan clubs.

When the crooner left, Ottawa went back to the peace of the Prime Minister and the Governor General.



**TAKE A GOOD LOOK**, boys, because this is what happens when youngsters don't follow simple bike safety rules. This pair looks at a bike jammed under car which struck and seriously injured their buddy, Charles Grieb, 10, in East Hempstead, N.Y. It should teach lesson hard to forget. It COULD be yours!

# U.K. War Office Stumped As Medals Go Begging

By Norman Cribbens

LONDON, July 9.—(CP)—Britain's war office is trying to devise a way of pinning medals on heroes' chests.

In other words, they want to get rid of nearly 4,000,000 medals earned by soldiers who apparently cannot be bothered to claim them.

Many officials say the medals are unclaimed because former soldiers do not want to renew unpleasant memories of the war by applying for them.

### 9,000,000 SURPLUS

The unclaimed medals are the surplus of 9,000,000 campaign stars, war service and defence medals ordered by the British army in the first exciting days of the peace—at a cost of about £300,000 ($1,200,000).

And the War Office is holding conferences to decide what is to be done about them.

Former Lt.-Col. R. G. Smith, 56, of Welling, Kent, has nearly 1,000-000 of these medals on his hands. That is the price of being controller of the medals department of the Royal Artillery records office.

Besides medals, Smith has about 66 miles of ribbon to go with them—and he doesn't know what to do with that either.

Both the war office and the Royal Artillery are at a loss to explain why nearly 2,000,000 officers and men have not taken the trouble to collect their medals and ribbons.

"Most of them filled in claim forms before they were demobbed," a war office official said. "But half of them later changed their addresses, so it was decided to ask them to fill in a card obtainable from any post office.

"The scheme was a flop. The number of cards applied for and returned was negligible. Either ex-soldiers are browned off with form-filling, or else they are browned off with war mementos in general."

Practically every known folklore has its special fairy.

# Farm Sales On Increase

OTTAWA, July 9.—(CP)—Farmers sold $460,586,000 worth of goods during the first three months of this year, an increase of seven per cent over the same period last year, the Bureau of Statistics reported today.

The increase was attributed to a larger scale of farm produce marketings and higher prices. Cash income from the sale of field crops totalled $135,878,000, an increase of 70 per cent, while livestock and livestock products sold for $264,776,000.

In the case of livestock where marketings were down from the same period a year ago, the price index indicated an over-all increase of more than 20 per cent, mainly due to higher prices obtained for Canadian cattle on the United States market.

Cash income from the sale of farm products was higher for all provinces except Prince Edward Island and New Brunswick. Totals for some provinces with 1948 figures in brackets: Ontario, $132,440,000 ($143,243,000), Manitoba, $28,900,000 ($24,328,000), Saskatchewan, $45,301,000 ($40,477,000), Alberta, $76,546,000 ($70,900,000), British Columbia, $17,599,000 ($16,610,000).

## Alexander Back From Fishing Trip To North

WINNIPEG, July 9.—(CP)—Canada's Governor-General, Viscount Alexander, reached here last night by RCAF aircraft from Whitehorse, Yukon, after an extended visit to Canada's Arctic regions.

Most northerly point visited by the Governor-General was Aklavik, near the Beaufort Sea north of the Arctic Circle.

Churchill, Coral Harbor and Yellowknife were among other points included in the itinerary, which started early this week.

The trip was officially described as a fishing expedition, with the vice-regal party reported to have caught a goodly number of greylings and rainbow trout.

Tomorrow Viscount Alexander will continue east to Ottawa.

## Lead Price Jumps One Cent A Pound

NEW YORK, July 9.—(AP)—The price of lead yesterday was raised one cent to 13 cents a pound, New York basis, by a leading custom smelter.

This was the first boost in lead since the price declined from the record peak of 21½ cents attained March 8. The post-war low of 12 cents had prevailed since May 26.

# COMMUNITY CHEST OF EDMONTON
## ANNUAL FINANCIAL STATEMENT

### Balance Sheet as of March 31, 1949

### Auditors' Report to the Members

We have examined the accounts of the Community Chest of Edmonton for the year ended March 31, 1949, and we have to report that we have obtained all the information and explanations we have required and, in our opinion, the appended balance sheet as of March 31, 1949, is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the organization as of March 31, 1949, according to the best of our information and the explanations given to us and as shown by the books.

PEAT, MARWICK, MITCHELL & CO.
Auditors.

Edmonton, April 14, 1949.

The Auditors' Statement, with full details of all items of Expense and Revenue, and allocations to Institutional Members may be seen upon request at the office of the Community Chest of Edmonton, Second Floor, Annex Building, 10128 98 Street, Edmonton.
